

DOIT MASTER AGREEMENT NUMBER:

B-04-002

DOIT APPROVAL DATE:

8/7/2006

**VENDOR NAME:** Nextel Sprint Communications

**VENDOR FEIN:** 52-1653244

**SERVICE/PRODUCT NAME:** Wireless Service and Equipment: Service

**SERVICE/PRODUCT DESCRIPTION:**

Sprint Nextel's integrated data and voice network provides customers with one single, dynamic integrated digital nationwide footprint; 100% digital CDMA and IDEN cellular voice communications; digital "always on", IP-based packet data service; and no roaming charges within the U.S. on most plans. Sprint Nextel's 4-in-1 wireless communication solution provides digital cellular, Walkie Talkie, Specialized Messaging Services, and wireless circuit and packet data.

**Direct Connect<sup>SM</sup>** (now called Walkie Talkie) is the 2-way digital walkie-talkie feature that lets you get right through *instantly* without the hassles of voice mail, phone tag or time delays. Already built into every Sprint Nextel IDEN phone, Walkie Talkie lets you instantly contact coworkers, customers, suppliers, family and friends. It provides instant communication via a private or group "Walkie-talkie"-like call. Walkie Talkie improves productivity and reduces "telephone tag", as Walkie Talkie calls do not terminate in a voice mailbox. It is also a fraction of the cost of cellular. VibriCall alert provides a discreet way to receive your Walkie Talkie calls. No other carrier provides you the ability to make such instantaneous private or group calls.

**Group Connect<sup>TM</sup> (now called Talkgroup)** allows customers to instantly communicate with up to 25 people at once with the push of a button, using Walkie Talkie service. It is a great feature for team members who depend on timely, consistent communication. Instead of making multiple calls, customers can reach more people at once -- get answers and get back to work.

**Sprint Nextel's Connection Cards** allow customers to wirelessly access their email, corporate network, and the Internet at high speeds on the Sprint Nextel PCS Vision<sup>SM</sup> Network or the Sprint Nextel EV-DO Network. Customers will experience wireless data speeds up to 10 times faster than they are used to. In areas where EV-DO is not yet available, the Connection Cards run on the current Sprint Nextel PCS Vision<sup>SM</sup> Network

**Sprint Nextel Business Essentials**

The new Sprint Nextel Business Essentials<sup>®</sup> Plan is designed to replace the following iDEN and CDMA plans. Those plans will be honored but not offered going forward. Sprint Nextel Business Essentials also shares with the following legacy plans on the same platform where sharing was purchased.

Nextel National Business Plans

Nextel National Team Share Plans

Sprint Nextel Total Wireless Access Plans

Sprint Nextel Ready Link Plans

Sprint Nextel Free & Clear Plans

Sprint Nextel Business Essentials<sup>®</sup> Plan ensures that your employees stay connected to key business people while working away from the office. Customers not only have an integrated solution at a competitive price, but they can also share anytime cellular minutes. With shared cellular minutes, customers can take control of their spending with shared minute plans.

**Overview**

Sprint Nextel Business Essentials<sup>®</sup> Plan is our core wireless voice offering that provides buckets of minutes that can be shared across users on an account with the added benefit of Unlimited Sprint Nextel Mobile to Mobile Calling (CDMA) or Unlimited Nationwide Walkie-Talkie (iDEN). Cellular minutes share across all Sprint Nextel Business Essentials<sup>®</sup> plan tiers within an account on the same network. With the Sprint Nextel Mobile to Mobile Calling option, your customers receive unlimited minutes for calls between Sprint Nextel Phones and most Nextel Phones. This is a valuable option for employees who often call other Sprint Nextel Phones and/or Nextel Phones, as Anytime Minutes are saved for other call types.

Along with a group of Anytime Minutes, subscribers also receive extended calling time with:

- Unlimited Nights & Weekends
- Unlimited Nationwide Walkie-Talkie (iDEN) or Mobile to Mobile (CDMA) Minutes
- Nationwide Long Distance
- Voicemail and Caller ID
- Shared Cellular Minutes

Ability to "Add-A-Phone". The Add-A-Phone has no minutes allowance of its own but will share the minutes of the other lines on the account.

#### **Program Details**

- Included Minutes & Sharing
- Anytime cellular minutes share across all rate tiers on the same network.
- Additional Add-a-Phone lines are available for low cost.
- Customers CANNOT purchase the Add-a-Phone as a stand-alone plan. A customer must have at least one Sprint Nextel Business Essentials® core plan. There is no limit to the number of add-on plans that may be added to an account.
- Unlimited Nights & Weekends are included.
- Night and Weekend Minutes can be used from Monday through Thursday 9pm to 7am and Friday 9 pm to Monday 7am.
- Nights starting at 7pm or Nights starting at 6pm are available for additional charges.
- Long Distance is included.
- Caller ID and Voicemail are included.
- Roaming is included on CDMA Network. Roaming not available with single-band phones or for customer located outside the Nationwide Sprint Nextel Network.
- Roaming usage may not exceed 50% of total usage per month or allocated roaming minutes in applicable markets. Roaming minutes cannot be shared.
- International roaming rates will vary and may be billed separately.

#### **Other Features**

Mobile to Mobile Buy-Up Option - This allows iDEN customers to make unlimited calls directly to most Nextel iDEN and Sprint Nextel Subscribers while on the Sprint Nextel/Nextel Nationwide Network without using your service plan minutes. Although unlimited Mobile to Mobile is included in Sprint Nextel Business Essential plan for CDMA customers, this option allows iDEN users to enjoy the same benefit. May exclude calls to or from Nextel subscribers in certain markets.

Nights & Weekend Buy-Ups - Customers who sign up for a Sprint Nextel Business Essential plan can purchase a N&W start time of 7pm, or customers can purchase a N&W start time of 6pm for an additional fee.

Mobile to Office is an attachable feature that provides unlimited voice calls between a Sprint Nextel mobile phone and a pre-identified office phone number. The Mobile to Office calls do not pull from the subscriber's bucket of anytime minutes. Monthly recurring charge applies. All cellular calls round airtime to the next full minute.

#### **Sprint Nextel Business Essentials® Plan Include The Following:**

- Pooling Included ( Shared Minutes)
- Unlimited Nationwide Walkie-Talkie (iDEN) or

- Sprint Nextel Mobile to Mobile Calling (CDMA)
- Long Distance Included
- CDMA Roaming Included
- Voicemail Included
- Caller ID Included
- Unlimited Night and Weekend

**Sprint Nextel Business Essentials® Plans:**

400 Anytime Minutes

1000 Anytime Minutes

1400 Anytime Minutes

2000 Anytime Minutes

2800 Anytime Minutes

4500 Anytime Minutes

Add a Phone (0 Anytime Minutes)

**Definitions:**

Add A Phone: Great for small businesses, Sprint Nextel Add-a-Phone lets you share plan minutes between up to five phones on one account.

Anytime Minutes: Anytime Minutes are included in all Sprint Nextel Service Plans. On most plans, Anytime Minutes are used from 7 a.m. to 9 p.m., Monday through Friday. If your plan does not include Night & Weekend Minutes, then your Anytime Minutes are also used from 9 p.m. Friday through 7 a.m. Monday. Anytime Minutes are also shared between all phones on a Sprint Nextel Add-a-Phone® account.

Area Wide Plans: More Anytime Minutes; all plan minutes are for calls made from your local calling area

Fair & Flexible: Plan automatically adjusts to the minutes used monthly, so customers don't waste a lot of money or minutes.

Sprint Nextel Vision Pictures Pack: Perfect for people who have a Sprint Nextel Vision Camera Phone. • Unlimited Picture MailSM – take, upload and send an unlimited number of pictures • Unlimited Sprint Nextel Vision access includes:– Unlimited email and instant messaging from America Online® and Yahoo!®– Unlimited Web access • 100 SMS Text Messages • Customers with a Sprint Nextel Vision Video Mail Phone can add Video Mail for an additional monthly charge.

Sprint Nextel Vision Premium Pack: - Unlimited Sprint Nextel Vision Access includes:

- Unlimited email and instant messaging from Sprint Nextel
- Unlimited Web access
- 100 SMS Text Messages

Unlimited N & W Minutes (Starting at 7 PM): **Night & Weekend Minutes are included in most Sprint Nextel Service Plans.** On most plans, Night & Weekend Minutes are used from **7p.m. to 7 a.m.**, Monday through Friday and all day on Saturday and Sunday. If your Sprint Nextel Service Plan does not include Night & Weekend Minutes, then minutes used during this time would count towards your Anytime Minutes. Night & Weekend Minutes are also shared between all phones on a Sprint Nextel Add-a-Phone account.

Unlimited N&W Minutes (Starting at 9 PM): **Night & Weekend Minutes are included in most Sprint Nextel Service Plans.** On most plans, Night & Weekend Minutes are used from **9 p.m. to 7 a.m.**, Monday through Friday and all day on Saturday and Sunday. If your Sprint Nextel Service Plan does not include Night & Weekend Minutes, then minutes used during this time would count towards your Anytime Minutes. Night & Weekend Minutes are also shared between all phones on a Sprint Nextel Add-a-Phone account.

Unlimited Mobile to Mobile Minutes: With unlimited Mobile to Mobile Calling, you can make or receive unlimited nationwide calls between every Sprint Nextel Phone (Sprint's CDMA phones and Nextel's IDEN

Phones) while on the Sprint Nextel Nationwide PCS Network. Unlimited Mobile to Mobile Calling minutes do not take away from your anytime minutes. As long as you call another Sprint Nextel Phone, you will not be charged minutes if unlimited Mobile to Mobile Calling is part of your service plan.

**NATIONAL SHARED MINUTE PLANS:**

- Cellular minutes are shared among phones on the same account.
- Cellular Calls Round to the Second after the First Minute.
- Unlimited Domestic Long Distance is included.
- Unlimited Direct Connect (in local calling area only) is included.
- Nationwide Direct Connect Calls is NOT included - If the Unlimited Nationwide Direct Connect option is not selected with the Shared Minute Plans, the cost of a Nationwide Direct Connect call is calculated by multiplying the number of participants on the call by a per-minute fee. Calls are charged to the call initiator. Nationwide Direct Connect calls use Direct Connect minutes in plan.
- Group Connect calls can be made in local calling area only. Call cost is calculated by multiplying the number of participants on the call by a per-minute fee. Calls are charged to the call initiator.
- Voice Mail is included.
- Caller Identification is included.
- Text messaging is at additional cost.

**National Shared Minute 100 Plan** includes the following:

- 100 Cellular Minutes
- Unlimited Direct Connect Minutes

### **Sprint Nextel CDMA EV-DO Ready Connection Cards and Connection Card Plans**

Sprint Nextel offers 2 EV-DO-ready Connection Cards for laptops and other mobile devices. Combined with Sprint Nextel's Connection Card Plans, Sprint Nextel's Connection Cards allow customers to wirelessly access their email, corporate Network and the Internet at high speeds on the Sprint Nextel PCS VisionSM Network or the Sprint Nextel EV-DO Network.

Customers will experience wireless data speeds up to 10 times faster than they are used to. Average user download speeds range from 400 to 700 Kbps with peak rates of up to 2.0 Mbps.

In areas where EV-DO is not yet available, the Connection Cards run on the current Sprint Nextel PCS VisionSM Network (1xRTT). The Vision Network can achieve speeds averaging 50 to 70 kbps, with peak speeds of up to 144 kbps. The Connection Cards are dual-mode and automatically fall back to the Vision Network when EV-DO is not available.

### **CDMA EVDO CONNECTION CARDS DATA PLANS:**

#### Flexible Data Plan

- Includes up to 40MB
- Can be used for any type of Sprint Nextel card (Vision (1xRTT) or EV-DO)

#### Unlimited Data Plan

- Unlimited data usage
- Can be used for any type of Sprint Nextel card (Vision (1xRTT) or EV-DO)

### **ADDITIONAL CDMA WIRELESS DATA SERVICES**

### **BlackBerry**

The BlackBerry Enterprise Server version 4.1 and associated pricing is available to iDEN and CDMA customers. This latest major version of BlackBerry software continues to build out and enhance many of the core features that have already made the BlackBerry platform the leading wireless connectivity solution for the enterprise today, enabling our customers to get business done. In addition to an exceptional wireless user experience, easy everyday functions, simple deployment, enhanced handheld asset control and manageability, wireless security, and simplified application development.

The release of BlackBerry 4.1 enterprise software brings with it significant enhancements, including:

Role Based Administration – allowing varying levels of access depending upon the position assigned by the account administrator.

Corporate Instant Messaging -integrates with Microsoft windows messenger, Novell GroupWise messenger and IBM lotus notes

Electronic Software Distribution for BlackBerry Enterprise Service (BES) and Client Access Licenses (CAL) for iDEN orders, bringing parity with the CDMA order and fulfillment process.

The BlackBerry device and BlackBerry Enterprise Server solution offer Sprint customers a best in class push based email solution. BES 4.1 is a scalable solution for Exchange, Domino, and GroupWise customers or just a few or up to thousands of users. This truly wireless email and data delivery solution is an easy choice for customers who want exceptional wireless user experience, wireless security, simplified application development, role based administration and corporate instant messaging. And it's never been easier to get with full electronic software distribution for simplified customer deployment. Maximize the BES functionality with the BlackBerry handheld offered today including features such as Bluetooth, walkie-talkie, speakerphone, GPS and more!

#### **BENEFITS:**

- Secure wireless email and data access from behind the corporate firewall.
- More administrative options with role based administration
- Simplified deployment with electronic delivery of software.
- Easy to use for the End User(handheld device user)
- Cost Effective
- Leverages existing infrastructure for Exchange, Domino and GroupWise
- Wireless access to web based intranet and internet applications

#### **Program Details**

BlackBerry Enterprise Server (BES) software is a server-based solution for Microsoft Exchange, IBM Lotus Notes or Novell GroupWise users that offers centralized administration, scalability, and wireless access to backend databases. It is the premium and recommended solution for organizations that use Exchange, Domino or GroupWise and wish to deploy a truly wireless email and data delivery solution. The IT administrator will install the BlackBerry software on the organization's server as well as on the user's desktop. The BES provides IT departments with powerful centralized administration tools that make it easy to manage multiple users such as pushing desktop software installation to users or wirelessly resetting passwords.

BES software comes with a feature called Mobile Data Services (MDS). With MDS, organizations can develop software applications that "push" corporate data such as customer information and inventory information wirelessly to the handheld. It enables network-aware Java applications allowing back-end corporate data to be pushed to or pulled from a Java enabled BlackBerry device, powered by Sprint PCS or Nextel.

#### **BlackBerry Enterprise Server Software Features and Benefits Details:**

Exceptional Wireless User Experience - BES 4.1 has been designed to provide customers with an enhanced data experience through support for image files (JPG, BMP, GIF, PNG and TIFF)

Easier Everyday Functions - new features such as being able to remotely set/control common email settings such as email filters, out-of-office replies and auto-signatures.

- A to Z speed dialing and an improved user interface.
- Accept Calendar appointments tentatively, with or without comments
- Task enhancements: Create recurring tasks and set a reminder date and time for all tasks
- Global Search: Simultaneously search the Address Book, Calendar, Memo Pad, Tasks and Messages applications

Simplified Deployment -- provides users with the option to quickly connect their handheld to BlackBerry Enterprise Server with cradle-less wireless provisioning, making it easier for a company to deploy BlackBerry handhelds.

#### Enhanced Handheld Asset Control and Manageability - IT departments BES

4.1 will be able to obtain additional statistics regarding handhelds that are deployed, for enhanced administration and asset tracking.

Additional Wireless Security Capabilities – BES 4.1 will offer even more security features though full support of AES (Advanced Encryption Standard) and content protection on the handheld with local data encryption.

Simplified Application Development -Extending BlackBerry beyond email will now be even easier. Some key functionality includes:

- New development tools and JavaScript™ support
- Improved offline form submission and XML optimization
- Easier purchasing decisions: Straight forward pricing for BES that best works with the customers existing structure and only one type of CAL to buy, since a CAL will work with either Microsoft Exchange, Domino Lotus Notes and Novell GroupWise BES software.
- Upgrades: Customers who have purchased previous versions of BlackBerry Enterprise Servers can upgrade to 4.1 at a very affordable price. All features of 4.1 can be used by the customers immediately. No upgrade pricing is available for customers with older version of BES software earlier than v3.5 for Exchange and v2.1 for Notes.

#### BLACKBERRY PLANS:

- Nationwide Walkie Talkie Calls - If the Unlimited Nationwide Walkie Talkie option is not selected with the Government Local Shared Plans, the cost of a Nationwide Walkie Talkie call is calculated by multiplying the number of participants on the call by a per-minute fee. Calls are charged to the call initiator. Nationwide Walkie Talkie calls use Walkie Talkie minutes in plan.
- Unlimited Email & Web Access is included.

BlackBerry Team Share Plans include the following:

- 250 Walkie Talkie Minutes
- Both cellular and Walkie Talkie Minutes share among users on the same account and rate plan.
- Cellular calls round to the next minute
- Unlimited Night and Weekend Cellular Minutes (do not share)
- Domestic Long Distance is included.
- Voice Mail and Caller ID are at additional cost.
- Unlimited Email and Web Access are included.

BlackBerry National Team Share 400 includes:

- 400 Cellular Minutes
- 250 Walkie Talkie Minutes

BlackBerry National Team Share 600 includes:

- 600 Cellular Minutes
- 250 Walkie Talkie Minutes

BlackBerry National Team Share 900 includes:

- 900 Cellular Minutes
- 250 Walkie Talkie Minutes

BlackBerry National Team Share 1200 includes:

- 1200 Cellular Minutes
- 250 Walkie Talkie Minutes

**BlackBerry Email and Web Plan Unlimited** plan includes the following:

- Zero Cellular Minutes. All Cellular use at an additional fee per minute.
- Zero Walkie Talkie. All Walkie Talkie Minutes at an additional fee per minute.
- Unlimited BlackBerry email and Web

**BlackBerry Email and Web Plan – 5MB** plan includes the following:

- Zero Cellular Minutes. All Cellular use at an additional fee per minute.
- Zero Walkie Talkie. All Walkie Talkie Minutes at an additional fee per minute.
- 5MB BlackBerry email, with overages at additional cost per kb

**BlackBerry Application Plan – 5MB** plan includes the following:

- Voice Plan Required
- 5MB BlackBerry email, with overages at additional cost per kb

**Nights& Weekends calling time extensions:** Nights & Weekends start at 9 p.m. and end at 7 a.m. For additional fee (Option 1), timeframe is extendable to: from 7 p.m. until 7 a.m., or (Option 2) from 6 p.m. until 7 a.m.

**Unlimited Mobile to Mobile** can be added for additional cost. This will enable unlimited cellular calls between Sprint Nextel iDEN phones, and between Sprint Nextel iDEN and Sprint Nextel phones.

## **SPRINT NEXTEL ONLINE WIRELESS DATA AND MESSAGING SERVICES**

Sprint Nextel Online (NOL) Services require an Internet-ready phone. Additional applications may require other fees

### **Sprint Nextel Data Plus Pack**

- For those with Multimedia Messaging enabled phones that use a moderate amount of messaging and also need data access to enable network aware JAVA applications and access the web.
- Unlimited Web Service, Unlimited Data Access, unlimited image/audio messages, Mobile Email (WAP), Instant Messaging (WAP), Pay-As-You Go Text Messaging.
- Free month offer: service credit will be applied on first or second month's invoice. After that time subscriber will be charged the applicable monthly fee unless subscriber cancels by contacting Sprint customer service. All pricing for Nextel data service packs is for private IP address only. Public IP address available for an additional monthly charge.

### **Web Plan**

- Access to over 80 top wireless Internet sites to stay informed and in control of your business. Includes Pay-As-You-Go Text Messaging.

### **Pay-As-You-Go Messaging**

- Pay-as-you-go basic messaging service, send and receive text, picture and audio messages from your Sprint Nextel phone, any email address or through Sprint Nextel.com. Cost per message.

### **Text Messaging 100 Plan**

- 100 Text Messages and Pay-As-You-Go audio/image messages
- Alerts are charged per received message. One way messaging alerts are one way messages that can only be received by the customer, and do not require a text messaging service subscription.
- Free month offer: service credit will be applied on first or second month's invoice. After that time subscriber will be charged the applicable monthly fee unless subscriber cancels by contacting Sprint Nextel customer service.

### **Text Messaging 500 Plan**

- 500 Text Messages and pay-as-you-go image/audio messages.
- Alerts are charged per received message. One way messaging alerts are one way messages that can only be received by the customer, and do not require a text messaging service subscription.
- Free month offer: service credit will be applied on first or second month's invoice. After that time subscriber will be charged the applicable monthly fee unless subscriber cancels by contacting Sprint Nextel customer service

### **Unlimited Text Messaging Plan**

- Unlimited text messaging and pay-as-you-go audio/image messaging. .
- Alerts are charged per received message. One way messaging alerts are one way messages that can only be received by the customer, and do not require a text messaging service subscription.
- Free month offer: service credit will be applied on first or second month's invoice. After that time subscriber will be charged the applicable monthly fee unless subscriber cancels by contacting Sprint Nextel customer service

### **Mobile Email Enhanced**

- For the mobile user who needs to stay in touch when away from his desk, home or office, a single Java application that provides instant connectivity to your desktop email, calendar and contact application from your Java enabled phone.
- Unlimited access to desktop email application. Read, reply, forward, create or delete email messages, manage your calendar, update your contacts. Synchronize over the air with your desktop application. Accessible on or off the Sprint Nextel Network. Additional software required behind the firewall or server based access to Microsoft Exchange or Lotus Domino.

### **MobilePics**

- Photo Management application for Individuals with a Multimedia Messaging-enabled
- View Share and Print photos from the web and directly from your multimedia messaging enabled phone. Additional charges apply for uploading pictures from the phone (via multimedia messaging) and for printing photos.

### **My Nextel Address Book**

- Manage up to 2,000 contacts at Nextel ...com, access remotely from your phone; download your phone's contact list, access administrator-loaded corporate directory. Includes My Nextel Address Book Administrator and Pay-As-You-Go Messaging.

### **50 Image/Audio Messages**

- For individuals or basic business users a moderate amount of image/audio messages.

### **International Data Services**

- Access to messaging, web services, mobile email and BlackBerry when traveling. Must be subscribed to services in order to access them internationally and standard service charges apply.

### **Mobile Locator**

- For managers and dispatchers who need to see the current location of field employees in real time on an internet based map.
- Unlimited real time access to online map. Includes pay as you go messaging. Requires GPS enabled internet ready phone that has been upgraded if purchased prior to October 1st, 2004 and PC with internet connectivity.

### **Total Access Data Access Plans**

- Access private or public IP addresses from your phone, PDA or laptop for network-aware Java

apps, wireless Net access, and behind-the-firewall corporate apps. Plans include: 0 - Pay-As-You-Go; 1 MB 5 MB; 10 MB; 50 MB; 100 MB, and Unlimited Data Access (requires public IP address at additional cost).

#### **Unlimited Wireless PC Access Plan**

- Unlimited wireless access to the Internet for laptop, PDA or phone users at speeds up to 56 kbps, using wireless modem card or tethered phone. Includes unlimited text messaging, instant messaging, unlimited web access and mobile email
- Unlimited Wireless PC Access Plan is intended to support laptop or PDA web browsing and Internet-based mail. While Unlimited Wireless PC Access Plan 3 is essentially an unlimited use product, Sprint Nextel reserves the right to restrict a customer's usage if it adversely affects network performance.

#### **Unlimited Wireless PC Access with WiFi Hotspots Plan**

- For mobile professionals, this service provides unlimited wireless access to the nationwide Sprint Nextel Wireless Data Network for laptops and PDAs PLUS unlimited WiFi wireless access from over 8000 locations.

#### **Sprint Nextel WiFi HotSpot Plan**

- For mobile professionals, this service provides unlimited broadband wireless access for laptop and PDAs from over 8000 and growing HotSpot locations

#### **Unlimited Data Access**

- For moderate/heavy user of data who need to data access from your phone to enable network-aware JAVA applications, access behind the firewall corporate applications, access private or public (additional fee) IP addresses. Requires upgrade (fee-based) to public IP address.

#### **Pay as You Go Data Access**

- For the casual users of data to enable network aware Java applications, access behind the firewall corporate applications, access private or public IP addresses.

**Wireless Priority Service (WPS)** allows authorized National Security and Emergency Preparedness (NS/EP) personnel to make cellular calls during an emergency when channels may be congested. WPS is the interconnect complement to Sprint Nextel's own Priority Connect service.

WPS is overseen by the National Communications System a division of the Department of Homeland Security. WPS was developed to meet a directive from the White House. NCS executes the program on behalf of the Executive Office of the President. Only individuals in NS/EP positions are authorized to use of WPS. Five categories have been established in order to identify critical NS/EP leadership functions and determine eligibility. Users must apply for and be approved by the National Communication System for Wireless Priority Service. Customers must apply directly to the NCS for Wireless Priority Service and be approved in order for Sprint Nextel to be able to add this service to a number. WPS is for leadership positions only and is not intended for use by all emergency service personnel. Priority Levels are:

- A.** Executive Leadership and Policy Makers
- B.** Disaster Response/Military Command and Control
- C.** Public Health, Safety and Law Enforcement Command
- D.** Public Services/Utilities and Public Welfare
- E.** Disaster Recovery

Customer must be a Sprint Nextel subscriber. Customer must request WPS service at <http://wps.ncs.gov> or call 1.866.NCS.CALL to apply. NCS will inform Sprint Nextel of those subscribers that are approved for WPS and at what Priority Level. Sprint Nextel cannot add, delete or modify a WPS subscription without NCS consent. Customers may access additional information at <http://wps.ncs.gov/>.

WPS is invoked by dialing \*272 prior to the destination number. Wireless Priority Service has a one-time activation fee, a monthly charge, a per minute charge, and additional long distance charges if the customer's rate plan does not include long distance. Use of Wireless Priority Service does not draw down upon cellular

minutes in a voice rate plan. Wireless Priority Service does not work outside of the United States.

**Sprint Nextel Public Safety Value Plan** – for Public Safety entities only, Sprint Nextel public safety communications solution provides interoperability across agencies, jurisdictions, and regions via Walkie Talkie and talk groups you designate. Coverage can be extended into remote areas in times of emergency, and is always on to supplement communications is the public network fails. Advanced features include:

- Priority Connect – putting your Walkie Talkie call ahead of others to help you get through when the network is congested. Users must be approved by Sprint Nextel and appropriate priority level set for them.
- Emergency Talkgroup – providing access to network resources during times of congestion, all members of the talk group receive priority treatment for the duration of the Sprint Nextel Talkgroup call. This feature requires use of i325 handset.
- Talkgroup Scan – allows you to monitor group call activity of up to four Talkgroups at one time. This feature requires use of i325 handset.
- Premium Public Safety Customer Care – Public Safety agencies are eligible to receive Premium Customer Care, 24 hours a day, 365 days a year, get support for order fulfillment, talk group set-up, service activation, handset repair and unit replacement.

**Sprint Nextel Public Safety Value Plan with Wireless Priority Service** – for Public Safety entities only. This plan includes all of the above features, but for a nominal additional cost, also includes Wireless Priority Service, as described above. Sprint Nextel Public Safety Value Plan with Wireless Priority Service waives the one-time activation fee as well as the monthly charge. Wireless Priority Use has a per minute fee as noted on the price schedule, plus toll charges if customer's Sprint Nextel voice rate plan does not include free long distance. Use of Wireless Priority Service does not draw down upon cellular minutes in a voice rate plan. WPS is invoked by dialing \*272 prior to the destination number. Customers must apply directly to the National Communications System and be approved for Wireless Priority Service. Application procedures are described above.

**Sprint Nextel Nextmail<sup>SM</sup>** – Use Walkie Talkie to email a voice message to a person or group, even if they're not a Sprint Nextel user. Email address can be in any state or country. Registration required. Email addresses must be input online, and a Walkie Talkie number will be assigned to that address and entered into phone book. User selects a recipient from phonebook, presses Walkie Talkie button to record voice message, releases the button and the message is sent to the address selected. NextMail uses Walkie Talkie minutes while message is being recorded. Nationwide Walkie Talkie Charges do not apply for NextMail messages. No set up fees. No charges for SMS messages sent as replies from recipient. Recipients pay nothing to receive or reply to NextMail messages.

**International Walkie Talkie** – International Walkie Talkie service is available in and between the US and Canada, and the US and Argentina, Brazil, Peru, and Mexico. Available to Nationwide Walkie Talkie users and subscribers of Sprint Nextel Online Web Plan Text Messaging services.

### **SERVICE OPTIONS**

- Walk-in Service Level 1 – Software upgrades, unit customization, shipping and handling
- Walk-in Service Level 2 – Antenna replacement, button replacement, SIM card replacement, hardware/software failures
- Walk-in Service Level 3 – Flip replacement, keyboard replacement, button replacement, speaker replacement, housing replacement, display replacement
- Door-to-Door Express – Phone replacement via mail service for active phones demonstrating hardware and software failures

**Sprint Nextel Service Plan** – a monthly repair program that covers a range of options. Full account participation required. NSP includes Walk-in Service Level 1, 2, 3, and Door-to-door Express.

**Seasonal Standby** – For low monthly fee, Seasonal Standby allows subscribers to put a hold on the unit, thereby significantly lowering monthly expenses for units not in use. Units cannot be on seasonal standby for more than six months over a twelve-month period. Subscribers must wait at least three months after initial activation to put unit on seasonal standby. Normal purchasing documentation is required for putting unit on

or off Seasonal Standby. However, in an Emergency situation, public safety customers can call Customer Care to reactive a unit quickly, and follow up with all required documentation as soon as possible.

**Sprint Nextel 411** – provides phone numbers, addresses, and directions.

**Sprint Nextel Interoperability Directory (NID)** – provides a secure and easy way to share contact information between Public Safety organizations to facilitate interoperable communications. Using a Sprint Nextel phone or BlackBerry, first responders and law enforcement officers can use NID to quickly find others in the directory and communicate with them.

- Improve communications both inter and intra agency
- Eliminate inefficiencies that can be associated with voice-based communications when searching for contacts
- Improve response times when coordinating with multiple agencies or organizations
- Central database – maintain accurate records on a central database that can be accessed by users anytime and anywhere
- Easy to use – Simple user interface is easy to use under extreme environments and emergency situations
- Secure information – Comprehensive administrative tools allow complete control over security and access privileges.
  - WAP based application
  - URL automatically provisioned to the phone upon subscription
  - Web-based Administrative tools for managing Directory content
  - Configurable agency and department level access privileges
  - Searchable fields include First Name, Last Name, Title, Agency Name, Phone Number
  - Ability to initiate cellular calls, Walkie Talkie calls, and two-way messages from within the application
  - No server and database maintenance costs for customers

**Cloudberry GPS Tracking by Air-Trak** – A comprehensive suite of capabilities for mobile resource management. Cloudberry is highly scalable, and can track and manage up to tens of thousands of mobile workers, vehicles, and other assets as easily as it manages a small fleet. Multiple windows can be viewed simultaneously to manage disparate areas. Zoom and pan functions rapidly navigate broad geographies. Groups of vehicles, workers, and assets can be displayed selectively to make large fleets manageable. Cloudberry is an open system that is easily integrated with enterprise, e-business, and third-party applications. An XML-based Web-services API, which is shared at no charge, accelerates development and allows Cloudberry to exchange data with virtually any back-end system.

- Routing integration with ESRI ArcLogistics Route and RouteSmart Technologies and QuickRoutes
- Easy configuration, all operational parameters are user configured
- Comprehensive set of reports summarizes loiter locations and durations, miles traveled, route and speed compliance, timecards, job tasks, message histories and more.
- Replay feature enables vehicle positions to be reconstructed over time with DVD-like control.
- Office managers and workforce can communicate through integrated Two-Way Messaging or Walkie Talkie.
- Automatic generation on-screen and email alerts when an asset enters or exits a restricted area, a vehicle diverts from its designated route, or other user-defined events occur.
- Requires Java-enabled handset.
- Requires Data Access Plan of 1MB or higher with Private or Public IP address
- Cloudberry In-Vehicle Standard service requires Cloudberry hardware.
- Cloudberry In-Vehicle Advanced service requires Cloudberry hardware and includes ability to utilize in-vehicle unit telemetry capabilities, in-vehicle unit messaging capabilities, and in-vehicle push to talk capabilities. In-vehicle push to talk services require separate Sprint Nextel voice plan and hardware accessories.

**@Road Pathway** – low-cost GPS-based application that helps to minimize the manual tasks of managing a mobile workforce. It is an ASP-based solution to verify routes, stops and work schedules, and provides

streamlined, centralized administration of mobile devices.

- Allows up to 2000 user-defined destinations and locations in a customized mapping database.
- Provides most recent location information about a particular mobile asset or worker and a breadcrumb trail of the vehicle path including start/stop times and speed.
- Management reports can be customized and exported in several common formats.
- Stores user-defined landmarks and shows the landmarks on maps.
- Geofencing and Exception Alerts indicate when a worker is speeding or when they are in a user-defined area.
- Location updated every 5 minutes.
- Requires Java and GPS enabled handset.
- Requires a minimum of 1 MB data access with Public IP address. If bar code scanning required as integrated part of solution, purchase of PSM20i Barcode Scanner for i58/88 phone also required (see accessories sheet).

**Xora GPS TimeTrack** - A single, affordably priced application that combines employee time, work order management, location tracking and barcode scanning capabilities with Sprint Nextel phones. An internet-connected PC enables managers to sign-up, manage and dispatch workers. Benefits include reduction of unnecessary travel time for field workers, reduction of overtime costs and significant productivity improvements.

- Requires Sprint Nextel voice services, Sprint Nextel Java/GPS phone, and minimum of Total Connect Plan with 1 MB. Public IP address strongly recommended.
- Supervisor Module: enables the Supervisor to do “jobs” and “time module” and track up to ten users on one handset. Currently available on phones only, with availability for BlackBerries expected early 2005.
- Optional Business Plus Module: merges the original dispatch module’s basic dispatch functionality (ability to send ad hoc text messages to the field and dispatch new job orders on demand) with the enhanced capabilities in:
  - Job Flex Fields: additional, customizable fields that can be adapted to capture extra information in the field that is specific to each business.
  - Geofencing: imaginary “fence” around landmarks that enables the worker to automatically clock in and clock out whenever he/she enters or exits the area within the fence.
  - Routes and Driving Directions: point-to-point driving directions that guide field workers to each work order destination
- Barcode Scanning Module: Custom comments or product Ids can be scanned in for job status or inventory management, and “cheat sheets” of frequently-used comments can be prepared ahead of time such that the comments can be easily inputted via the barcode scanner instead of manually typing in the codes. Requires Symbol Barcode Scanner – see accessory descriptions and pricing.
  - Barcode Scanning Module and Business Plus Module cannot coexist on the same Sprint Nextel Handset.

**IT2ME** – GPS- based wireless solution that allows customers to track and monitor valuable resources, including physical assets and employees.

- Includes GPS tracking of location, speed and direction.
- Also provides web-based maps and reports, GPS-enabled dispatch and messaging, animated route history, preferences, time and attendance, landmarks, geo-fencing, user-definable key events, remote data entry, and directions.
- Java versions listed below must be downloaded to Sprint Nextel GPS- and Java-enabled phones. IT2ME also has a web-based interface that allows clients user-friendly access to a secured, password-protected account to monitor and control their GPS application and database.
  - IT2ME Silver features – overview, News, Drivers, Employees, Groups, Managers, Locations, and Maps.
  - IT2ME Gold features – Silver plus Fleet View, Overtime, history, manager Directions, Ping, Dispatch, Messages, Geo-Fencing, Landmarks, Reports, Preferences, Key Events, Over-time,

Manager Directions, Key events, Time, Job codes, Teams.

- IT2ME Platinum features – Gold plus Remote data fields, remote data forms, send pictures, lists, event watch, email alerts.
- Gold-API IT2ME can track both GPS and non-GPS handsets using Sprint Nextel Location API (Application Program Interface). It has the same set of features as IT2ME Gold. Works on all Sprint Nextel handsets except BlackBerry 6510 and 7510.

**TeleNav** – provides real-time visual and audio GPS directions to guide drivers to their destination easily.

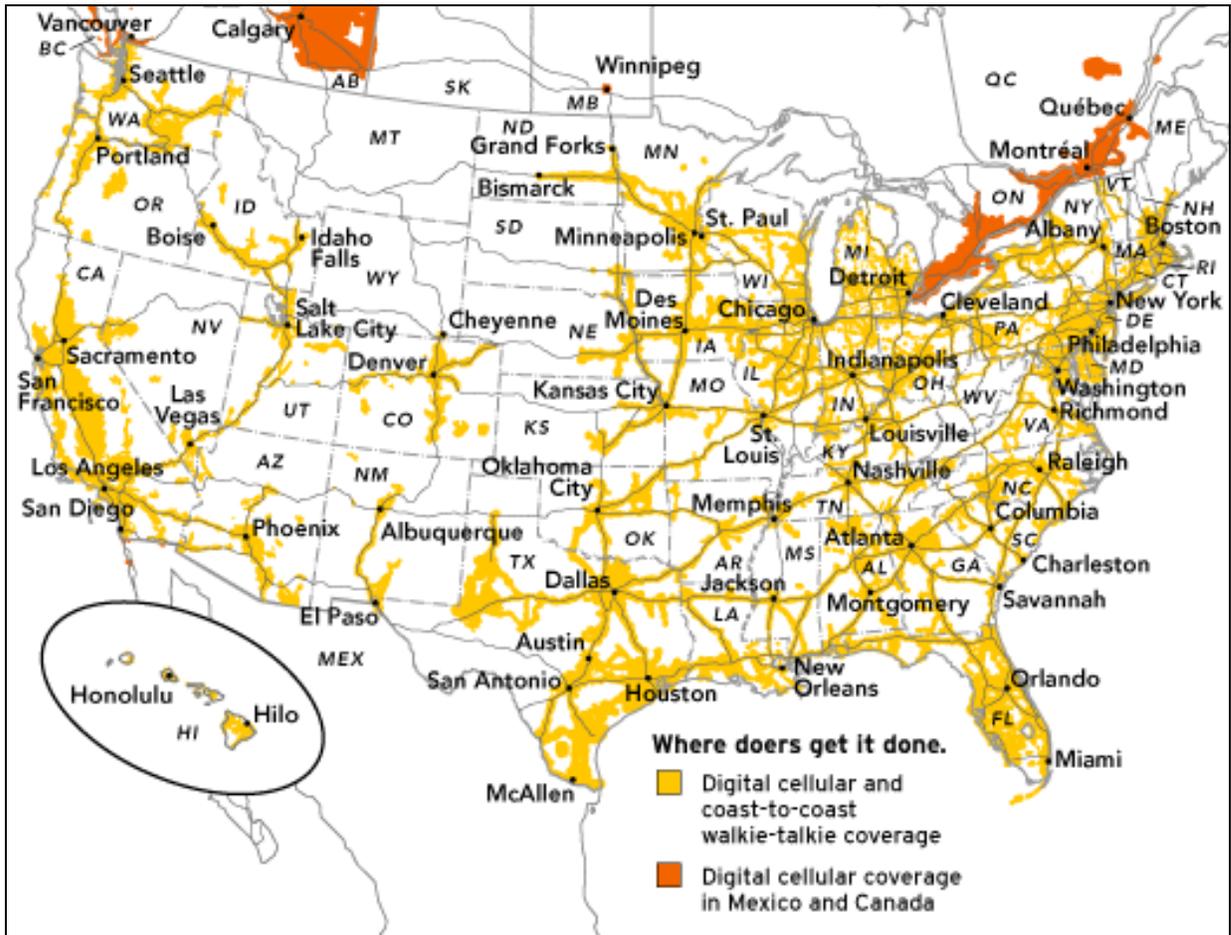

- Provides GPS navigation service at low price than many other vehicle-installed navigation systems.
- As TeleNav is on the device, it is portable.
- Unlike conventional navigation system, users not required to type in address or swap map CDs.
- Maps automatically updated every quarter at no additional cost to user.
- Provides audible directions so that drivers do not need to look away from the road.
- Instructions provided over speakerphone of handset as needed.
- Automatic rerouting if a turn is missed.
- Supports multilingual audio – English, Spanish, Russian, and Portuguese.
- Business Finder/Yellow pages to locate selected address across the country.
- Full color maps of location on i730 phones.
- Send location to another TeleNav subscriber.

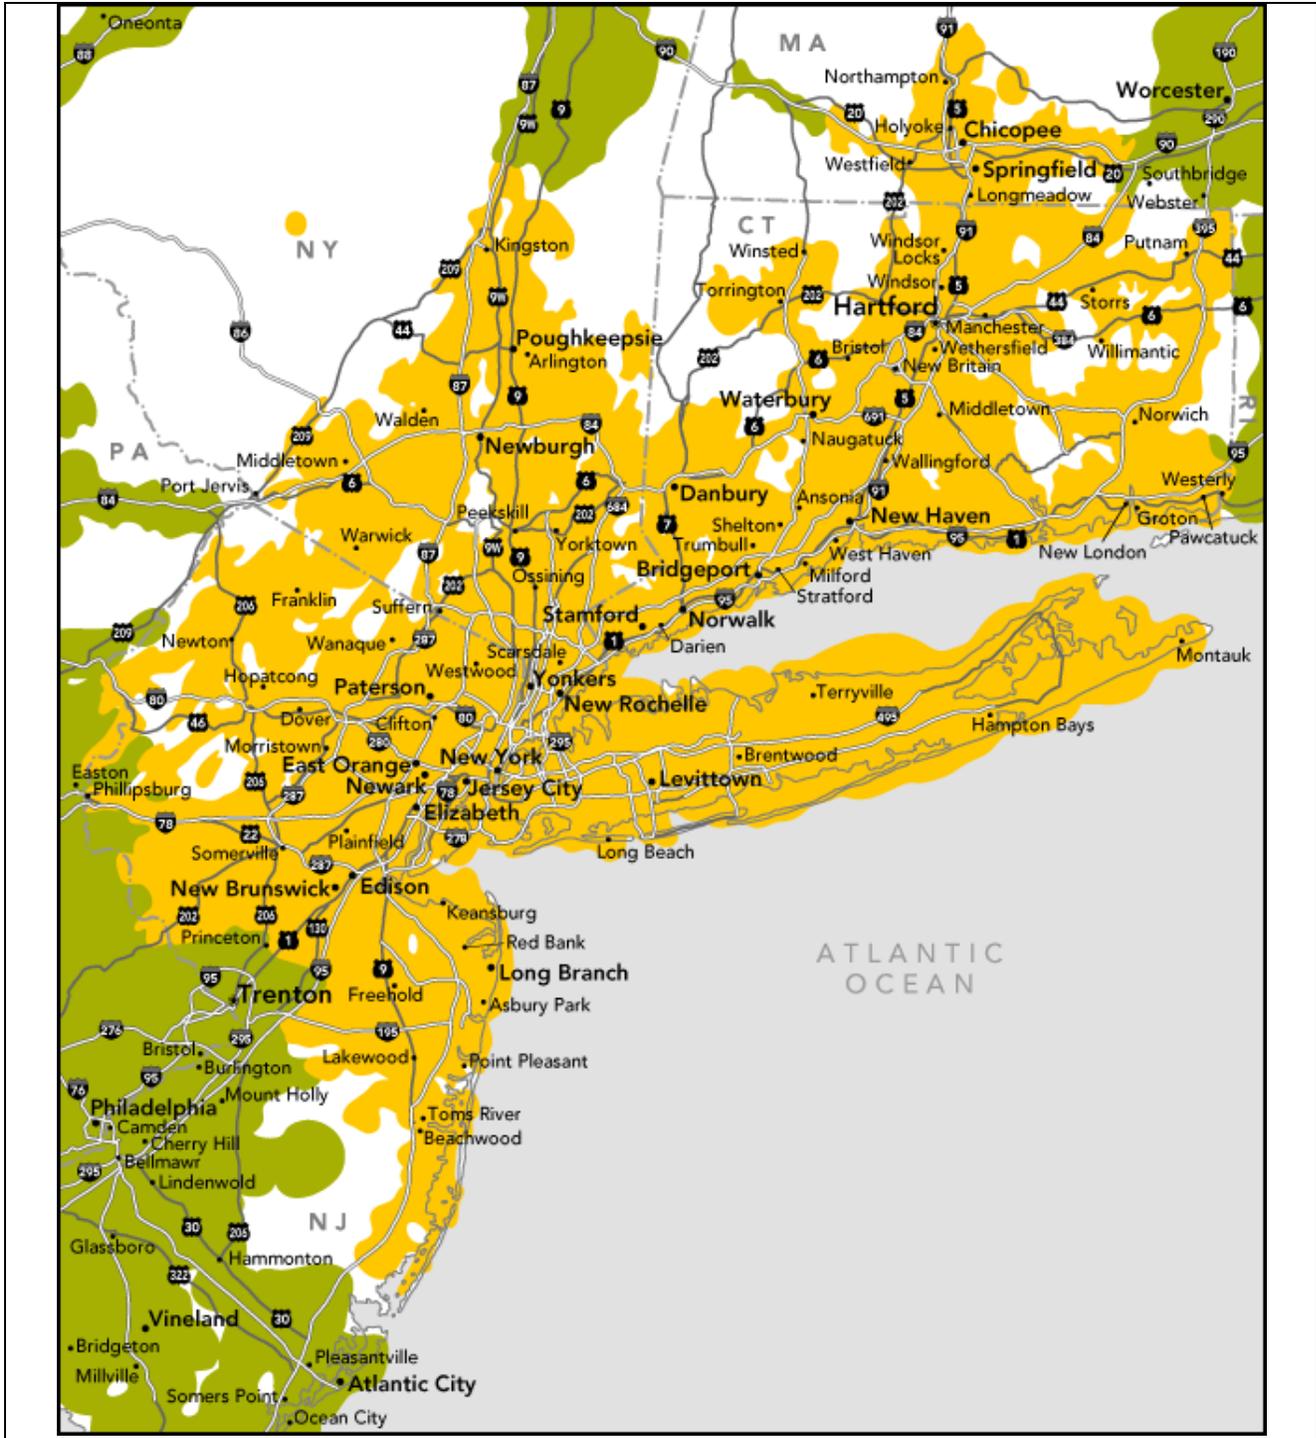

Requires Sprint Nextel voice service. Average address is 10KB without audio prompts and 30 KB with audio prompts. In both cases, street names are displayed on phone screen.

- TeleNav 10 – Requires Sprint Nextel Java-enabled GPS device – models i58, i265, i710, i730, i830, i860, i325, i325IS. Limited to ten routes, and includes 1/2 MB Total Connect. Overages will apply for usage above 1/2 MB. Route is defined as set of complete driving directions to get from Point A to Point B including three route recalculations in the event the driver departs from the planned route within a 24-hour period. TeleNav 10 not available for subscribers already having a Total Connect Plan. In this case, TeleNav Unlimited is recommended. Credits for free month of service offers will be applied on first or second month's invoice. After that time, subscribers will be charged a monthly access fee, unless subscriber cancels by calling Sprint Nextel's customer service. Requires new service activation. Service tiers with data access included are not available to customers with a standalone data access subscription, including BlackBerry users.
- TeleNav Unlimited – Requires Sprint Nextel Java-enabled GPS device - models i58, i265, i710, i730, i830, i860, i325, i325IS, and BlackBerry 7520. Includes Interactive Voice Response (IVR) with speech recognition for entering destination addresses. Requires minimum of Pay-as-you-go Total Connect plan. Credits for free month of service offers will be applied on first or second month's invoice. After that time, subscribers will be charged a monthly access fee, unless subscriber cancels by calling Sprint Nextel's customer service. Requires new service activation. Service tiers with data access included are not available to customers with a standalone data access subscription, including BlackBerry users.

**SERVICE LEVELS:** None

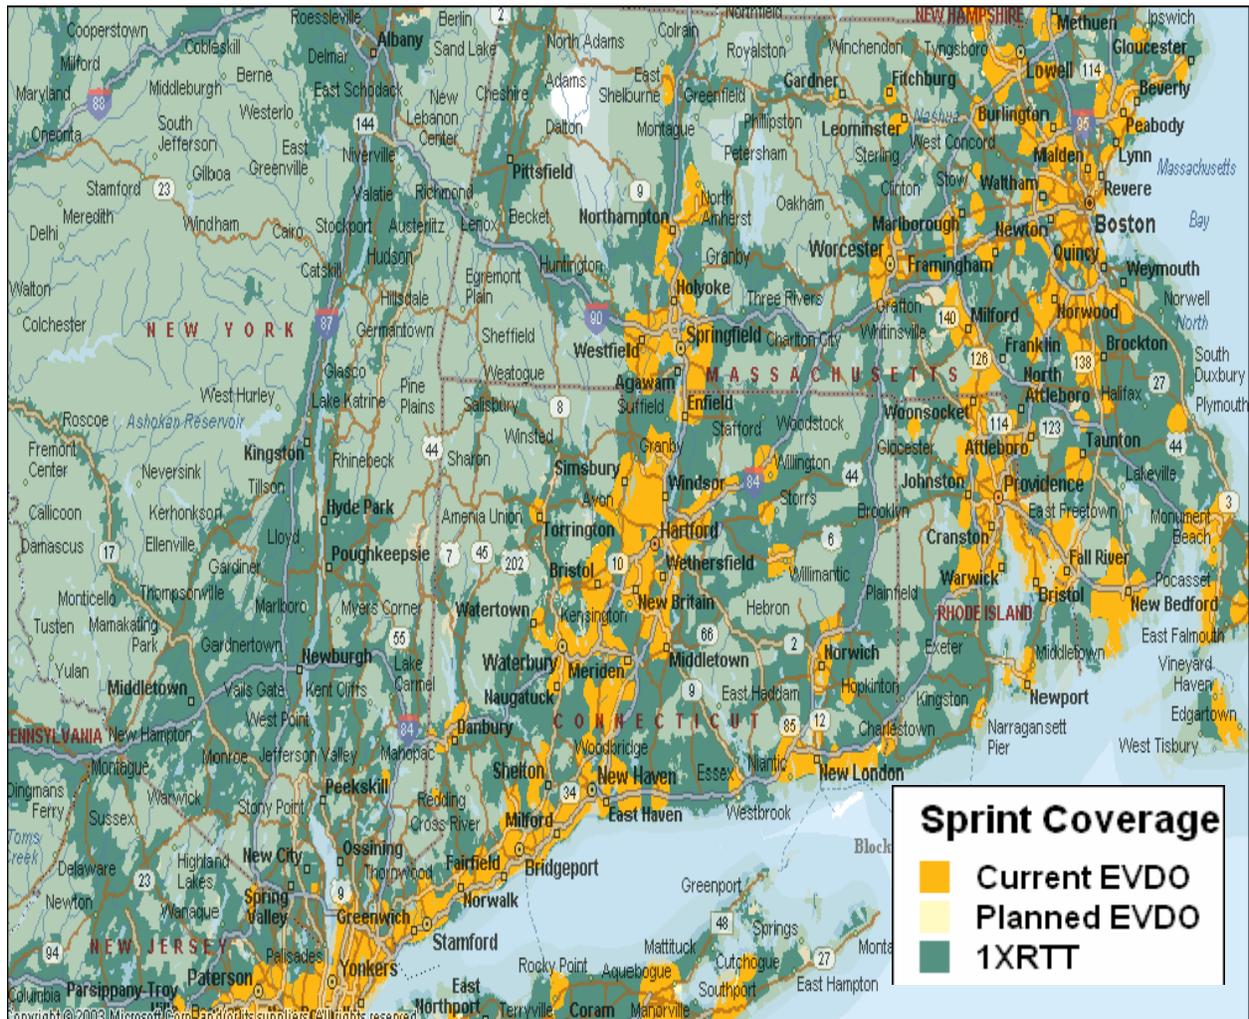

**SERVICE AVAILABILITY/LIMITATIONS:**

- Digital cellular coverage and Direct Connect coverage (approximate)
- Digital cellular coverage and Nationwide Direct Connect coverage (approximate)
