Lunch (provided)

2:00 p.m. – 3:45 p.m.

Burned Human Remains (cont.)

3:45 p.m. Test

Seminar Speakers

Steven Mackaig, C.F. I. has been a fire investigator since 1982 starting his investigation career with the San Diego Fire Department, Metro Arson Strike team. He is a certified fire investigator with the State of California and the International Association of Arson Investigators. He has conducted over 3 thousand fire investigations and holds a specialty in vehicle fire investigation. Mr. Mackaig has lectured on the subject throughout the United States, Canada and Mexico and testified as an expert over 100 times in both civil and criminal cases. He has test burned over 100 vehicles in the study of vehicle fire behavior.

Mr. Mackaig is currently a private fire investigator and owns Steven R. Mackaig & Associates with his company located in the San Diego area. This company provides all types of fire cause investigations, testing and consulting in post fire cases.

Elayne Pope, MA affectionately known in the industry as "*The Dame of Flame*" is completing her doctoral degree at the University of Arkansas. Her dissertation titled "The Effects of Fire on Human Remains: Characteristics of Taphonomy and Trauma" explores the effects of burning to bone and tissues of the human body through experimental actualistic studies with cadaver models for use by arson and death investigators. This research documents continuous stages of thermal destruction to soft anatomy and its influence on underlying skeletal structures normally encountered in burned remains of forensic casework. She has taught Forensic Anthropology, Criminalistics, and Forensic Taphonomy at the Anthropology Department in Arkansas and consults on forensic cases involving skeletal or burned human remains.
