

USE OF CHEMICALS IN REMOVING SOOT FROM BOILERS, FURNACES, CHIMNEYS AND FLUES

Current with material published in Conn.L.J. through 6/2/08

Sec. 21a-12-1. Application for permission to manufacture or distribute

Any person, firm or corporation desiring to manufacture and/or distribute for the removal of soot from boilers, furnaces, chimneys and flues in the state of Connecticut shall make application in duplicate on forms furnished by the commissioner.

(Effective July 27, 1984, formerly 29-108-1.)

Sec. 21a-12-2. Fee

Such application shall be accompanied by the statutory fee of fifty dollars.

(Effective July 27, 1984, formerly 29-108-2.)

Sec. 21a-12-3. Applicant to furnish sample of compound

Each applicant shall furnish a sample, at least one pound in weight, of the compound which he proposes to distribute and shall, at the same time, give a list of the component elements in such compound and their proportions.

(Effective July 27, 1984, formerly 29-108-3.)

Sec. 21a-12-4. Permit number to be printed on packages of compound

Each permit shall have a serial number which number shall be imprinted on each package of any such compound sold or offered for sale in the state of Connecticut and in the following form; to wit,

Permit No.
State of Connecticut
Department of Consumer Protection
Hartford

(Effective July 27, 1984, formerly 29-108-4.)
