

You Can Help Reduce Prescription Drug Abuse

Prescription drug misuse, diversion and abuse endangers public health and safety. As a Connecticut-licensed physician, you can help identify patterns of potential misuse, diversion and abuse, while providing better patient care, through the Connecticut Prescription Monitoring and Reporting System (CPMRS).

CPMRS Benefits

- Comprehensive patient controlled substance prescription records
- Immediately available online 24/7
- Accurate controlled substance prescription information
- Threshold reports highlight a patient's potential misuse, diversion or abuse of controlled substance prescriptions

Visit the Prescription Monitoring Program's website at www.ct.gov/dcp for more information and to sign up for your free CPMRS account.

Help your patients get the treatment they need, while preventing the inappropriate use, diversion and abuse of controlled substances.
