

## Distillate Board Meeting Minutes, September 29, 2010.

### Members in Attendance:

James Vitali, Chairman Tuxis-Ohr's Fuel Inc.

Paul Hoar Agrifuels LLC.

Christos Glynos Biopur

John Mitchell Mitchell Fuel Company, Inc.

Randy Petroniro Musco Fuel & Heating, LLC.

Thomas Santa Santa Energy Corporation

### Agenda

1. Introduction of members and organization
2. Presentation by Steve Guveyan on API concerns, see attached letter
3. Adjournment

### Discussion/New Business

1. Low sulfur and bio blending questions. Concerns were expressed on charges related to Public Act 10-74 and the specific scope of authority for the board. Specifically in the implementation of the act with respect to biodiesel/bioheat and the low sulfur requirements there seemed to be a lack of clarity on whether these requirements were independent or linked in terms of implementation. Frank Greene will look into getting this clarified.
2. Name plate capacity. What mechanisms exist to determine the accurate production locations and capacity of biodiesel/bioheat manufactures/distributors? Are there existing reporting requirements?
3. Emergency meetings. Contingency plans are needed to generate mechanism for the board to meet to advise the Commissioner in case of short supplies of bio product or low sulfur fuel
4. Member contact information to be supplied to members
5. Board location. Jim Vitali volunteered his conference room for future meetings
6. Meeting schedule. No firm dates were set for the next meeting but there was agreement that at a minimum the board should meet in late January, early February
