

SERC's new AT Corner

by Smita Worah, Ph.D, Consultant, SERC

Introducing a new addition to the SERC Library: an Assistive Technology Corner! Families and educators can come see a display of low-, mid- and high-tech Assistive Technology (AT) devices, try them out, and learn about the latest research and trends in the field of assistive technology. In addition to demonstrating the use of the devices, SERC staff can provide information on how to create low-tech AT using everyday materials as well the importance of AT in accessing, participating in, and progressing in the general education curriculum. For more information and to make appointments for demonstrations of AT, please contact the SERC Library at library@ctserc.org, or call 860-632-1485 x4.

AbleData: Tools & Technologies to Enhance Life

Have you seen the new AbleData website? It's completely redesigned and now you can easily find information on Assistive Technology Products, Product Makers and Sellers and AT Resources. They also offer information on News & Events. Visit www.abledata.com to see for yourself.
