Provider Profile

Life Quest was founded in 2005, we have 40 employees and provide 14 separate services under 4 different state funding programs. We are an energetic, creative, culturally diverse group of professionals, dedicated to achieving the highest standards of excellence in the services we provide. We are a small agency, however our size has lent itself to our ongoing success over the past 9 years. As a small agency we are able to provide more focused support, better accessibility to management, and more flexibility in services. Due to our size, management is integrally involved in the day to day running of our programs through direct contact with our consumers and high tech efficient communications between management, workers, and consumers. As a result, information on progress of programs is easily accessible to consumers and their families. The result is that our homes and our programs are structured, well executed, safe, efficient, and reflect individual consumer's goals. We believe our success is reflected in the cooperative efforts of all the dedicated professionals we work with

Our goal is to facilitate opportunities for the consumers we serve and assist them in defining, working towards, and realizing their goals with the greatest degree of independence achievable. We are committed to providing quality care services in an atmosphere that emphasizes respect and recognizes the consumer's input in shaping the services they receive. We believe together we can enrich the lives of the consumers we serve as well as improve attitudes and create opportunities in the communities they live in.
