There are no forms for a flood management exemption request / application.

The application for a Flood Management Certification is the same application form for all IWRD individual permits, a copy of which was submitted with the original application, which you should already have. A blank application form is attached, fyi. The instructions for filling out individual applications is also attached. Applications for FMC Approval only require Attachments A, B, F, G, H, I and P. Q is optional.

Thanks. When I clicked on link for permit application forms on the fact sheet page, the page below came up. Can you clarify which form(s) apply?

Cynthia,

URL link to the Flood Management Certification fact sheet here:

[http://www.ct.gov/deep/cwp/view.asp?a=2709&q=324172&deepNav\\_GID=1643](http://www.ct.gov/deep/cwp/view.asp?a=2709&q=324172&deepNav_GID=1643)

There is no separate application form for Exemption applications. If an applicant is requesting an exemption from an FM Statute and / or Regulation, they submit that request with any supporting justification in writing at the time they submit their application for the Flood Management Certification (FMC) approval. In this case, the applicant made that request as part of their response to our first Notice of Deficiency (NOD). I believe I already sent you the applicant's original FMC application materials and a copy of their response to our first NOD, but let me know otherwise.

Thanks,  
Colin.
