

Mid-Atlantic/Northeast Visibility Union

MANE-VU

## Opportunity To Comment

### MANE-VU

(Mid-Atlantic/Northeast  
Visibility Union)  
April 04, 2008

MANE-VU members, other states, and stakeholders are invited to comment on a draft report.

MANE-VU is charged with coordinating regional haze planning in the Mid-Atlantic and Northeastern United States. The draft document listed below will assist in this process. Please see below for a brief description and a link to more information.

- 2018 Visibility Projections

The comment period will be open through April 25, 2008. Comments and questions should be sent via email to Angela King of MARAMA at [aking@marama.org](mailto:aking@marama.org).

#### **2018 Visibility Projections Draft Report**

This report represents the most detailed effort to date to quantify the visibility impacts of those measures that are being actively considered by MANE-VU states as a result of the regional haze consultation process. The visibility projections presented here will be useful to the MANE-VU states as they establish reasonable progress goals and develop their long-term emissions management strategies for Class I areas under the federal Regional Haze Rule.

The draft document is available at: <http://www.nescaum.org/topics/regional-haze/regional-haze-documents>

#### **The Process**

Comments will be reviewed and may result in changes to the draft document. Comments received after that date will be considered as time permits.

Please send comments and questions to Angela King at [aking@marama.org](mailto:aking@marama.org) by April 25, 2008.
