

## **Notice to Lobster Fishermen**

### **SEASON CLOSURE REMINDER**

This notice serves as a reminder of the upcoming fall season closure required under Addendum XVII to the Atlantic States Marine Fisheries Commission's (Commission) American Lobster Fishery Management Plan which was approved in November 2011. The season closure is the same as in past years and applies to all Long Island Sound waters (LMA 6). It extends from September 8 through November 28, inclusive, and applies to both recreational and commercial fisheries and all gears. Between those dates, possession of lobsters taken from LMA 6 or from traps with LMA 6 trap tags is prohibited.

All lobster gear must be removed from the water during the closure, except that the plan allows fishermen two weeks at the beginning of the closure period (September 8 through September 21) to remove gear and two weeks prior to the late fall reopening (November 15 through November 28) to redeploy the gear. Traps cannot be baited until one week prior to reopening (November 22). An exception to the gear removal requirement is provided for fishermen who hold a conch (whelk) license for those lobster pots being actively fished for whelk. The taking and landing of lobsters during these exception periods is prohibited.
