

Connecticut Department of  
Energy & Environmental Protection  
Bureau of Materials Management & Compliance Assurance  
Water Permitting & Enforcement Division

# **Instructions for Completing the General Permit Registration Form for the Discharge of Stormwater and Dewatering Wastewaters from Construction Activities**

## **(Issued 08/21/13, effective 10/1/13 (non-electronic form))**

*Use these instructions to complete the registration form for the General Permit for the Discharge of Stormwater and Dewatering Wastewaters from Construction Activities (DEEP-WPED-REG-015). These instructions are not a substitute for the requirements of any relevant statutes or regulations. You should review all applicable laws prior to completing the registration form. Remember, it is your responsibility to comply with all applicable laws.*

*A completed registration form must be submitted for each site conducting construction activity regulated by this permit. Please note that the submission of a permit transmittal form is not necessary.*

### **Introduction**

The Water Permitting and Enforcement Division of the Department of Energy and Environmental Protection's (DEEP) Bureau of Materials Management and Compliance Assurance uses both individual and general permits to regulate stormwater discharges. Individual permits are issued directly to an applicant, whereas general permits are permits issued to authorize similar activities by one or more registrants throughout a prescribed geographic area. Authorization of an activity under a general permit is governed by that general permit. A general permit sets terms and conditions for conducting an activity which, when complied with, are protective of the environment. General permits are a quicker and more cost effective way to permit specific activities for both the department and the applicant. Any questions regarding this general permit should be directed to 860-418-5982.

### **Who May Apply for General Permit Authorization?**

With the exception noted in the "Small Construction" section (Section 3(d)) of this general permit, any person or municipality that initiates, creates, originates or maintains a discharge described in the "Eligible Activities" section (Section 3(a)) of this general permit shall file with the commissioner a registration form that meets the requirements of the "Contents of Registration" section (Section 4(c)) of this general permit (or a re-registration form) and the applicable fee within the timeframes and in the amounts specified in Sections 3(c) and 4(c)(1)(A), respectively. Any such person or municipality filing a registration remains responsible for maintaining compliance with this general permit.

### **How to Apply**

Your general permit registration must include the following:

- an original *General Permit Registration Form for the General Permit Registration Form for the Discharge of Stormwater and Dewatering Wastewaters from Construction Activities* (DEEP-WPED-REG-15) that is electronically filled out, printed, and signed, and

- all necessary supporting documents attached (Attachments A-E), and
- the applicable fee, paid by check or money order, made payable to the “Department of Energy and Environmental Protection”.

**You must submit the above materials together as a package to:**

CENTRAL PERMIT PROCESSING UNIT  
 DEPARTMENT OF ENERGY AND ENVIRONMENTAL PROTECTION  
 79 ELM STREET  
 HARTFORD, CT 06106-5127

When submitting your general permit registration, label your supporting documents as directed on your registration form and always include, on each document, the registrant's name. When additional space is necessary to answer a question stated in the registration, please attach additional sheets to the Registration Form. Label each sheet with the registrant’s name as indicated on the *Registration Form*, along with the corresponding part number and question number indicated on the general permit registration form. You should retain a copy of all documents for your files.

**Part I: Registration Types and Timelines**

Select the appropriate box to specify if the registration is for a re-registration of an existing permit, a new registration that is for a locally approvable project (see definition in Permit), or a new registration that is for a locally exempt project of an existing authorization under the General Permit. If this is a new registration, select either locally approvable or exempt project, provide the size of soil disturbance, and select the appropriate timeline.

If there are any changes or corrections to your company/facility or individual name, mailing or billing address or contact information, please complete and submit the [Request to Change Company/Individual Information](#) to the address indicated on the form. For any other changes, you must contact the specific program from which you hold a current DEEP Permit. If there is a change in ownership, please contact the Permit Assistance Office for questions concerning license transfers at 860-424-3003.

**Part II: Fee Information**

A registration fee must be submitted for each registration you are submitting. Refer to the criteria below to determine the appropriate fee for your activity.

√ New Registrations

∅ Locally approvable projects (registration only):

- \$625

∅ Locally exempt projects (registration and Plan):

- \$3,000 total (soil disturbance area  $\geq$  one (1) and  $<$  twenty (20) acres).
- \$4,000 total (soil disturbance  $\geq$  twenty (20) acres and  $<$  fifty (50) acres).
- \$5,000 total (soil disturbance  $\geq$  fifty (50) acres).

*The fees for municipalities shall be half of those indicated in subsections 1.a., 1.b., and 2 above pursuant to*

*Section 22a-6(b) of the Connecticut General Statutes. State and Federal agencies shall pay the full fees specified in this subsection. The registration will not be processed without the fee. The fee shall be non-refundable and shall be paid by certified check or money order payable to the Department of Energy and Environmental Protection.*

### **Part III: Registrant Information**

#### **1. Registrant/Client Name:**

- Provide the full, legal company/firm name. If identifying an entity registered with the Secretary of the State, fill in the name exactly as it is shown on such registration and provide the Secretary of State Business ID Number. If identifying an individual, provide the full legal name (include title and suffix) in the following format: Title (Ms, Dr, etc.); First Name; Middle Initial; Last Name; Suffix (Jr, Sr., II, III, etc.) .
  - Select one of the following “*Registrant Types*” from the drop down: Individual, Business Entity, Federal Agency, State Agency, or Municipality.
  - Select one of the following “*Business Types*” from the drop down: Corporations, Limited Liability Companies-LLC, Limited Liability Partnerships-LLP, Limited Partnerships-LP, Partnerships (General Partnerships-GP), Statutory Trusts, other ( if other, specify type in the space provided) or N/A (non-applicable).
  - Provide your Secretary of the State business ID number (if applicable). This information can be accessed at [CONCORD](#).
  - Provide the mailing address including the street address, city/town, state, and zip code.
  - Provide a business phone number where the registrant’s contact person can be contacted during the daytime business hours.
  - Provide the name and title of the specific individual (Contact Person) within the company whom DEEP may contact.
  - Provide an accurate company email address. The email address may be used for future correspondence from the DEEP to your business.
  - If applicable, provide an additional phone number, other than the one provided as the “Business Phone”, where the contact person can also be contacted.
2. If different than the registrant, provide specific contact information for billing matters.
  3. If different than the registrant, provide specific information for the primary or on-site contacts.
  4. If different than the registrant, provide specific information for the owner of the property on which the activity will take place.
  5. If different than the registrant, provide specific information for the developer.
  6. If different than the registrant, provide specific information for the general contractor.
  7. If different than the registrant, provide specific contact information for any engineer(s) or other consultant(s) employed or retained to assist in preparing the registration and/or Stormwater Pollution Control Plan. Provide your Secretary of the State business ID number (if applicable). This information can be accessed at [CONCORD](#).
  8. If different than the registrant and a locally approvable project, provide specific information for the Reviewing Professional. This information must match the information provided in Part IX of the registration form.

### **Part IV: Site Information**

*DEEP strongly encourages all registrants to conduct a review of the following including Coastal, Natural Diversity Data Base and Aquifer Protection information as soon as possible to resolve any outstanding issues,*

where feasible, before submitting their general permit registration to DEEP to ensure a more timely and efficient review of their general permit registration.

**1. Name of Site:**

This should be the name by which the site is commonly known and/or uniquely identified. The information given as the “Street Address or Location Description should be the address of the property at which the activity/proposed activity takes place. Include the street address and municipality. If the property does not have a street number, describe the location in terms of the distance and direction from an obvious landmark such as an intersection with another roadway, a bridge, or a river. For example, “on River Street, approximately 1000 feet north of its intersection with Bear Swamp Road”. If linear, the project location should be the project beginning point and include only one zip code. Provide the Longitude and latitude of the site. Next, provide a brief description of the construction activity including the project start date (must be on or after the authorization date of the permit), anticipated completion date and the normal working hours.

**2. Mining: Mining is not authorized by this general permit.** If the site in question has activity which is part of mining operations, you must submit the Registration Form for the General Permit for the Discharge of Stormwater Associated with Industrial Activity.

**3. Combined or Sanitary Sewer:** If **all** of the stormwater from the proposed activity discharges to a combined or sanitary sewer (i.e. a sewage treatment plant), the discharge is not regulated by this permit. Contact the Water Permitting & Enforcement Division at 860-424-3025.

**4. Indian Lands:** Select the appropriate box to specify if the facility is or will be located on federally recognized Indian lands.

**5. Coastal Boundary:** Activities within the state's coastal area must be consistent with the Connecticut Coastal Management Act, i.e., sections 22a-90 through 22a-112 of the Connecticut General Statutes (CGS). You may be required to complete a *Coastal Consistency Review Form* (DEEP-APP-004) to demonstrate that the activity is consistent with the standards and policies of the Connecticut Coastal Management Act.

To determine whether this requirement pertains to you, you must first determine if your activity is, or is proposed to be, located in either the coastal area or the coastal boundary.

- The *coastal area*, as defined in CGS section 22a-94 (a), includes the land and water within the following towns: *Branford, Bridgeport, Chester, Clinton, Darien, Deep River, East Haven, East Lyme, Essex, Fairfield, Greenwich, Groton (City and Town of), Guilford, Hamden, Ledyard, Lyme, Madison, Milford, Montville, New London, New Haven, North Haven, Norwalk, Norwich, Old Lyme, Old Saybrook, Orange, Preston, Shelton, Stamford, Stonington (Borough and Town of), Stratford, Waterford, West Haven, Westbrook, and Westport.*

- The *coastal boundary*, as defined in CGS section 22a-94(b), is a designated region within the coastal area. It is delineated on DEEP-approved coastal boundary maps which are available for review at the DEEP Office of Long Island Sound Programs (OLISP), the DEEP File Room, and municipal offices of towns located in the coastal area. Copies of these maps may also be purchased from DEEP Maps and Publications. The map can also be viewed at: [www.cteco.uconn.edu/map\\_catalog.asp](http://www.cteco.uconn.edu/map_catalog.asp).

#### ***Activities within the coastal boundary-***

If your proposed activity will be located in the coastal boundary and you are applying for a new authorization under a general permit, you must select “**yes**” in the registration form and attach the coastal management Act Determination form( found in Appendix d of this general permit) to you registration form as Attachment B.

For renewals or modifications of existing authorizations for activities located within the coastal boundary, you are not required to submit information on CT Coastal Management Act requirements with your initial registration materials. However, DEEP may notify you that submission of the Coastal Consistency Review Form is required to process your registration depending upon the specific activities to be conducted and their potential impact on coastal resources.

#### ***Activities outside the coastal boundary but within the coastal area-***

For general permit registrations for activities located outside of the coastal boundary, but within a town in the coastal area, you should select “**no**” in the registration form. You are not required to submit a *Coastal Consistency Review Form* with your initial registration materials. However, DEEP may notify you that submission of this form is required to process your registration depending upon the specific activities to be conducted and their potential impact on coastal resources.

- 6. Endangered or Threatened Species:** In order to be eligible to register for this General Permit, each registrant must perform a self-assessment, obtain a limited one-year determination, or obtain a safe-harbor determination regarding threatened and endangered species. This may include the need to develop and implement a mitigation plan. While each alternative has different limitations, the alternatives are not mutually exclusive; a registrant may register for this General Permit using more than one alternative. See Appendix A of the General Permit. Each registrant must complete this section AND Attachment C to this Registration form. A registrant who does not or cannot do so is not eligible to register under this General Permit.

Each registrant must perform a review of the Department’s Natural Diversity Database maps to determine if the site of the construction activity is located within or in proximity (within ¼ mile) to a shaded area. Refer to “Requests for Natural Diversity Data Base State Listed Species Reviews” located on the DEEP website at: [www.ct.gov/deep/nddbrequest](http://www.ct.gov/deep/nddbrequest) to determine if your activity is located within an area identified as a habitat for listed species. Print a copy of the NDDB map you viewed and attach it to the Registration Form. In addition to the map printout, you must complete and attach Attachment C of the Registration Form and complete question 6.a-6.c.

- 7. Wild and Scenic Rivers:** At this time, the only designated wild and scenic rivers are the West Branch of the Farmington River and the Eight Mile River. Please refer to Appendix H of the general permit for further guidance.
- 8. Aquifer Protection Areas:** The following DEEP link, [Aquifer Area Maps](#), provides the list of towns and maps and information to determine if your activity may be regulated either by the local aquifer protection agency or the DEEP Aquifer Protection Program. For further assistance, you may call the Aquifer Protection Program at 860-424-3020. For additional guidance, please refer to Appendix C of the General Permit.

**9. CT Guidelines for Soil and Erosion and Sediment Control:** For guidance, please refer to [2002 Connecticut Guidelines for Soil Erosion and Sediment Control](#).

**10. Historic and/or Archaeological Resources:** For guidance, refer to Appendix G of the general permit.

**11. Conservation or Preservation Restriction:**

Select the appropriate box based on whether or not the subject site has a conservation or preservation restriction. Use local land records to obtain this information.

**PART V: Stormwater Discharge Information**

Use the following tables to identify the number, type, and location of all existing and proposed stormwater outfalls, both temporary and permanent, at your site. An outfall is a point source discharge of stormwater from your site. List the number and location of outfalls as they appear on your Pollution Control Plan.

**Table 1 – Outfall Information**

**Outfall Number:**

Each outfall should have a distinct number identifier and should be listed as designated in your Pollution Control Plan.

**a) Type:**

From the dropdown menu available, select the type of conveyance: pipe, swale, or other (if other, specify the type in the space provided).

**b) Pipe Material:**

From the dropdown menu available, select the material of the conveyance: concrete, metal, and clay, plastic, other (if other, specify the material in the space provided) or not applicable. If your discharge is not conveyed through a pipe, select “not applicable” here.

**c) Pipe Size:**

From the dropdown menu available, please select the size of the conveyance: 3”,4”, 6”,8”,10”,12”,15”, 18”, 24”, 36”, 42”, 48”,54”, 60”, 72”, 84”, 90”, 96”, or other (if other, specify the size in the space provided) or not applicable.

**d) Latitude/Longitude:**

A decimal format is required here for this table. If the latitude and longitude numbers given are outside of Connecticut’s boundaries, an error message will appear. If you used another method besides CT ECO and need to convert coordinates from degrees, minutes, seconds format to decimal format, use the formula below.

$$\text{degrees} + (\text{minutes}/60) + (\text{seconds}/3600)$$

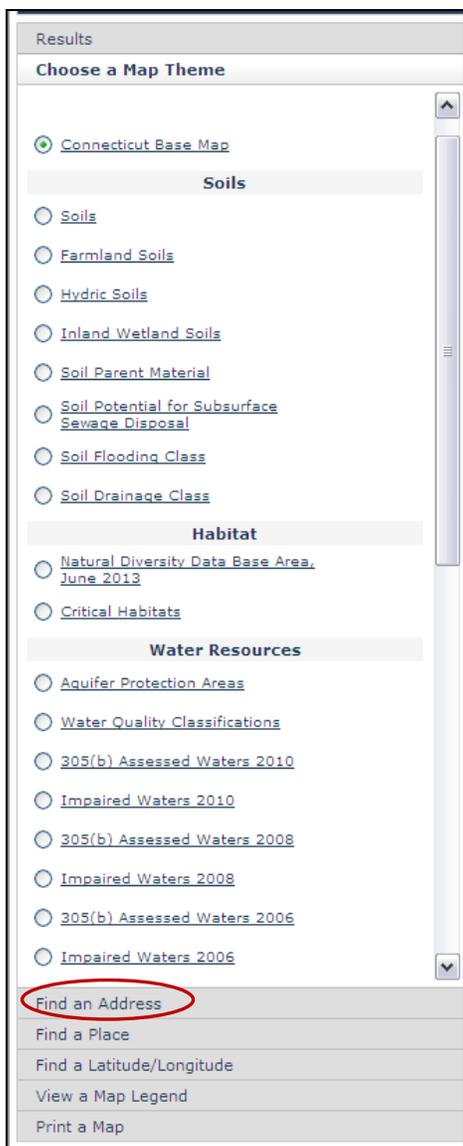

For example, to convert 42deg, 08min, 10sec into decimal format:  $42 + (8/60) + (10/3600) = 42.1361$

Access the CT ECO webpage to find the latitude and longitude for each outfall at:

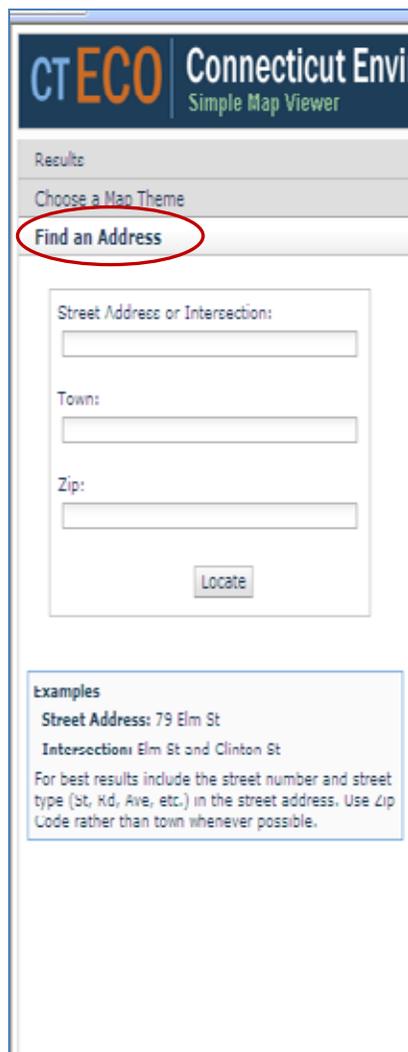

<http://ctecoapp1.uconn.edu/simpleviewer/ezviewer.htm>.

The following explains how to navigate CT ECO.

1. On this webpage, a map of Connecticut will appear on the screen. To the left of the map will be a large box that labeled at the top “Choose a Map Theme” (See Figure 1).
2. There are five grey boxes listed at the bottom of this box. Select on the first box that reads “Find an Address”.
3. Fill in the street address or intersection, town and zip code of the site location and select “Locate” (See Figure 2).

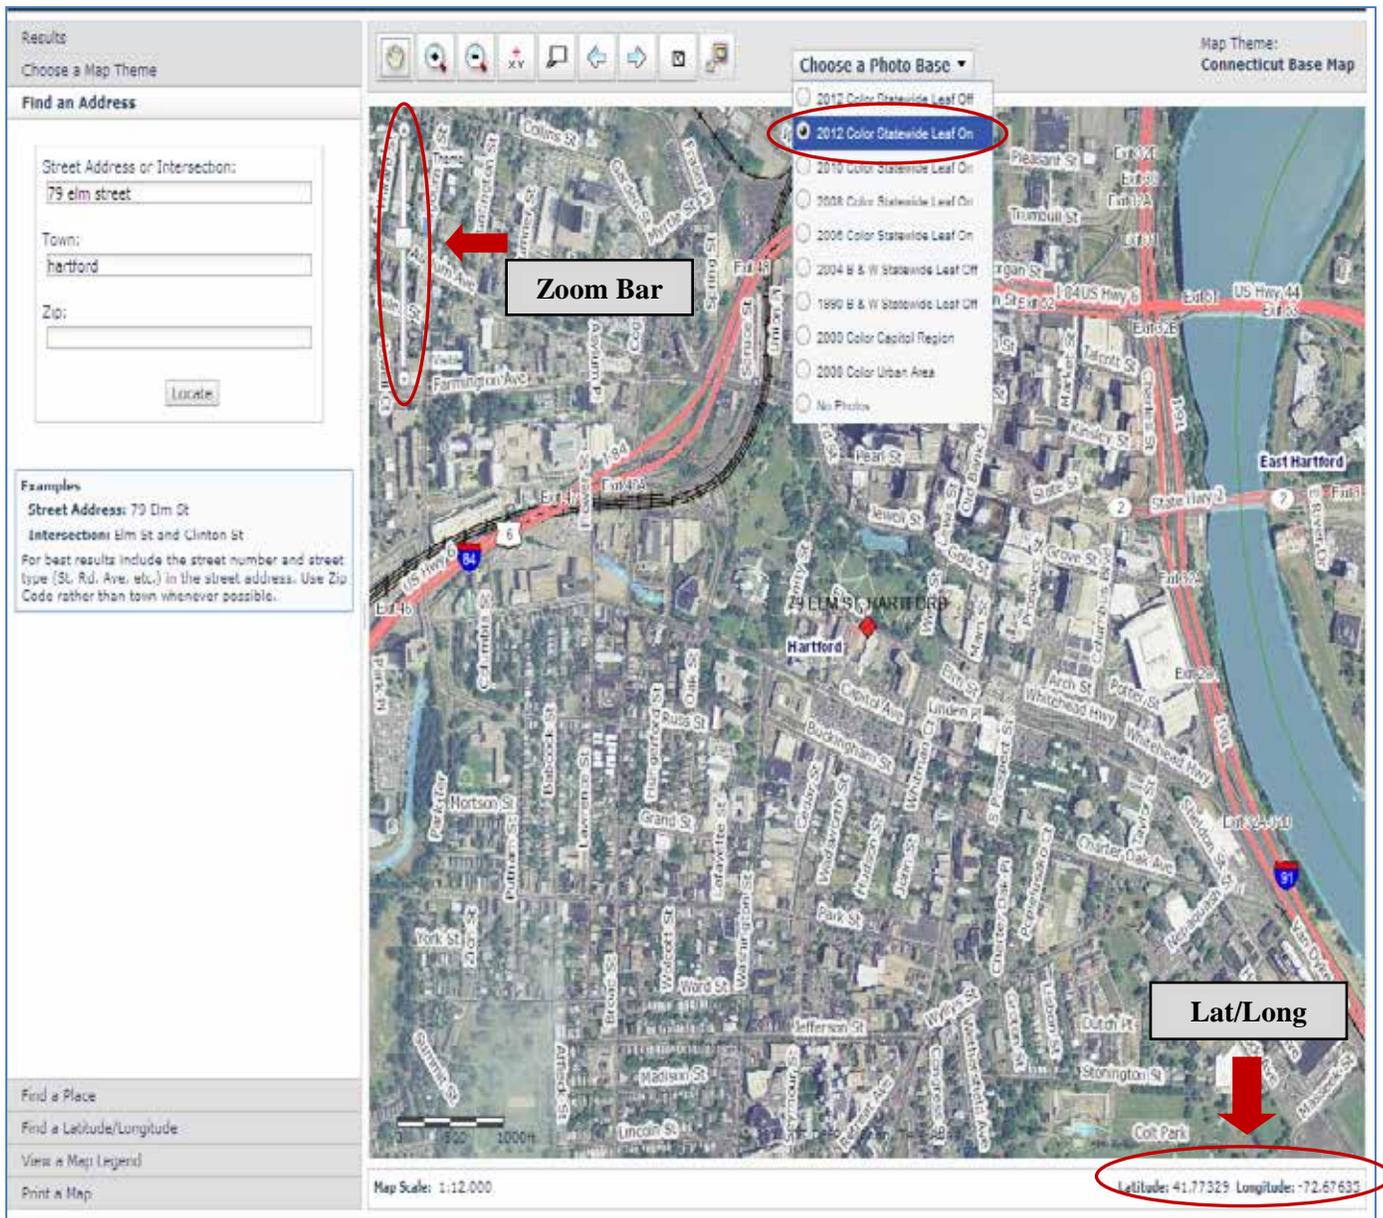

(Figure 1)

(Figure 2)

4. To find your outfall location, first click on the “Choose a Photo Base” dropdown menu located in the top center of the page. Then choose the most up to date map option (see Figure 3).
5. Use the zoom bar located in the top left hand corner. To zoom in closer, move the white box upward and to zoom out, move it downward. Zoom in to map scale 1:3,000 so that you can approximate the location of your outfall(s).
6. Hold the cursor over each outfall location and note the latitude/longitude coordinates found at the bottom right hand corner of the page.

**(Figure 3)**

**e) Select which method was used to obtain your latitude/longitude information: CT ECO, GPS, or other.**

## Table 2

Table 2 is a continuation of Table 1. Copy the listing of outfall numbers from Table 1 into Table 2.

- a) For temporary and permanent outfalls, provide a start date. For temporary discharges, also provide the estimated date the discharge will cease.
- b) For the drainage area associated with each outfall, provide the amount (in square feet) of Effective Impervious Area **Before** Construction.
- c) For the drainage area associated with each outfall, provide the amount (in square feet) of Effective Impervious Area **After** Construction.
- d) Provide the system or receiving water to which your stormwater runoff discharges, either “storm sewer or wetland” or “waterbody”  
(If you select “storm sewer or wetland” proceed to Part VI of the form. If you select “waterbody” proceed to next question)
- e) For each outfall, does it discharge to a waterbody in any of the following towns: Branford, Kent, Manchester, Meriden, North Branford, Norwalk or Wilton (If no, proceed to Part VI of the form. If yes, proceed to next question in the table.)
- f) For each outfall, does it discharge to a “freshwater” or “saltwater”? (If you select “freshwater” proceed to Table 3. If you select “saltwater”, proceed to Part VI of the form.)

## Table 3

**Certain water body segments have been identified as impaired for turbidity, sedimentation/siltation or suspended solids and are listed on the [Impaired Waters Table for Construction Stormwater Discharges](#). Follow the steps below to complete Table 3 only if your outfall(s) discharges to a freshwater waterbody in Branford, Kent, Manchester, Meriden, North Branford, Norwalk, or Wilton.**

Copy the listing of outfall numbers from Table 1 into Table 3

To find the 305b ID #'s (water body ID#) required in question a) of Table 3, follow the instructions given below step by step. Each outfall number may have a different ID number based on the outfall location.

- a) Follow these step by step instructions below to determine the 305b # for each outfall.

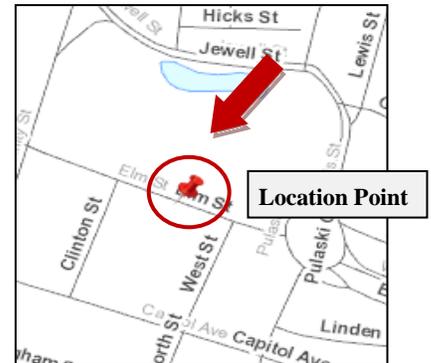

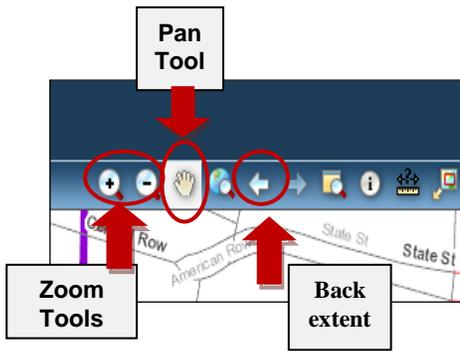

**Step 1:** Go to the CT ECO website: <http://ctecoapp1.uconn.edu/advancedviewer/>

**Step 2:** A map of Connecticut will open in your browser.

**Step 3:** Next locate your site on the map by searching any of the following: site address, an address in close proximity of the site in question or by town.

### To search by town:

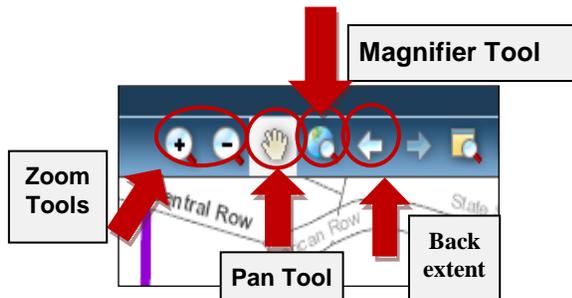

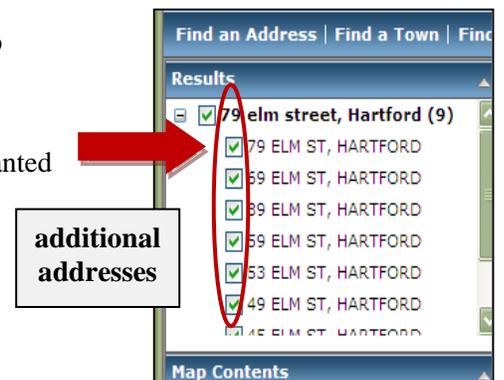

- Select “find a town” tab located in the top left portion of the screen.
- Select the town in which the site in question is located. To adjust the map, use the “pan” and “zoom” tools in the top right corner of the page.
- Zoom in until local features are visible such as streets and roads. If you zoom too far select the “back extent” arrow to go back to the previous view.
- To move the map, use the pan tool to grab and adjust.

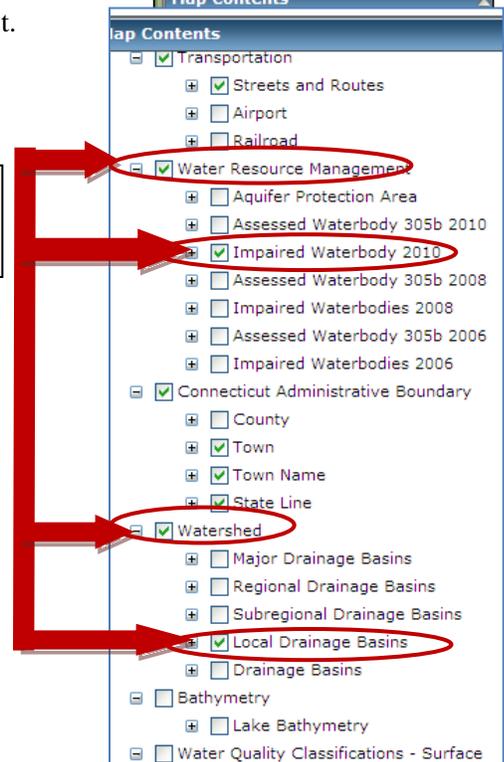

Or

**To search by address:**

- Select “Find an Address” on the top left hand corner of the page and type in your street address in the box titled “Street or Intersection” and your town name in the “Zone” box.
- Once you select “Find”, CT ECO will place a red pushpin on the map at your location.
- The “Results” section contains the results of your search. If other unwanted addresses show up on the list here, unselect them.
- To adjust the map, use the “pan” and “zoom” tools in the top right corner of the page. Zoom in until local features are visible such as streets and roads. If you zoom too far select the “back extent” arrow to go back to the previous view. To move the map, use the pan tool to grab and adjust.

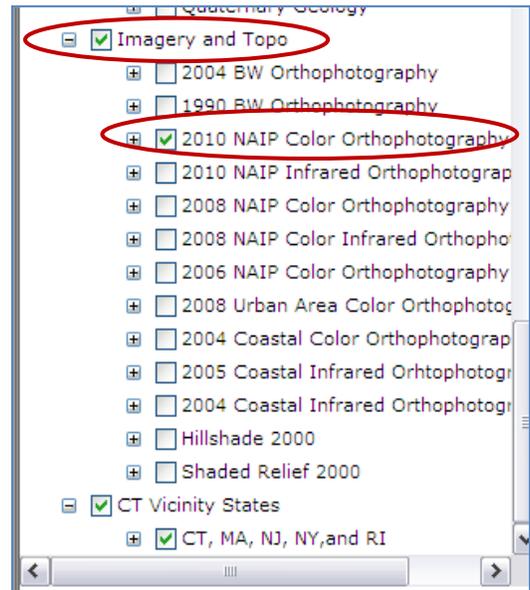

Select these 4 boxes

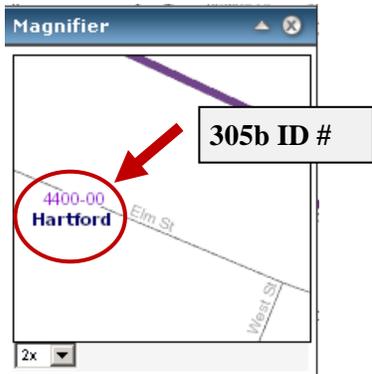

**Step 4:** In the “Map Contents” section on the left side of the screen, scroll down to “Water Resource Management” select this and the most recent Impaired Waterbody list below it. Also scroll to find “Watershed”, select “Watershed” and “Local Drainage Basins” below that.

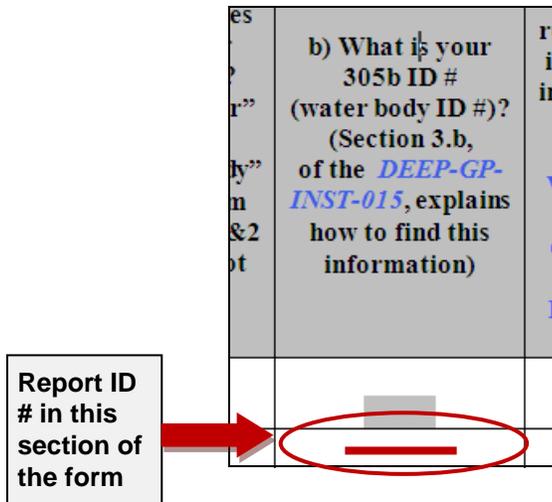

**Step 5:** In the “Map Contents” section on the left side of the screen, scroll down to the “Imagery and Topo” and select this and the most recent NAIP Infrared Orthophotography option.

**Step 6:** Use the magnifier tool at the top of the page to help find the 305b ID #. Once you select the magnifier tool symbol, grab the top blue section of the box and drag the box so that it appears over the outfall location, and then release.

**Step 7:** The hyphenated six digit purple number in the box is the 305b ID # that you will report on the registration form.

If you have any questions please email Carol Papp at: [carol.papp@ct.gov](mailto:carol.papp@ct.gov).

b) Compare your 305b # with the 305#'s provided on the “[Impaired Waters Table for Construction Stormwater Discharges](#)”. If your number is found on this list, select yes and proceed to question c) in Table 3. If your number is not found on this list, select no and proceed to Part VI of the form.

c) Refer to the last column, labeled “Approved TMDL”, of the “[Impaired Waters Table for Construction Stormwater Discharges](#)” to determine if the impaired waterbody has an approved Total Maximum Daily Load (TMDL).

### **Part V: Stormwater Discharge Information (continued)**

Impaired Waters If you answered “yes” to Table 3, question b., you must answer Question 1 or Question 2 of PartV. Question 1.a. or 1.b. must be answered if the receiving water is impaired, but does not have a TMDL. For receiving waters with a TMDL, answer questions 2.a. and 2.b. and either 2.c.1 or 2.c.2.

**Part VI: Pollution Control Plan:** You must select one of the three options listed. If you are providing a Plan, select whether the Plan will be attached to your registration form or a URL address for an electronic Plan will be given.

### **Part VII: Registrant Certification**

After the registration has been completed it must be reviewed for completeness and signed by both the registrant and the individual(s) who actually prepared the registration, (e.g. consultants, professional engineers, surveyors, soil scientists, etc.). By their signature, they certify that, to the best of their knowledge and belief, the information contained in the registration, including all attachments, is true, accurate, and complete. Provide the legal name of registrant and address of the project or activity.

The certification of the registration package shall be signed as follows:

1. For an individual(s) or sole proprietorship: by the individual(s) or proprietor, respectively;
2. For a corporation: by a principal executive officer of at least the level of vice president, or his/her agent;
3. For a limited liability company (LLC): by a manager, if management of the LLC is vested in a manager(s) in accordance with the company’s “Articles of Organization”, or by a member of the LLC if no authority is vested in a manager(s);
4. For a partnership: by a general partner;
5. For a municipal, state, or federal agency or department: by either a principal executive officer, a ranking elected official, or by other representatives of such registrant authorized by law.

**A registration will be considered insufficient unless all required signatures are provided.**

### **Part VIII: Professional Engineer (or Landscape Architect, where appropriate) Design Certification (for locally approvable and exempt projects).**

This certification must be signed by a Professional Engineer or Landscape Architect where appropriate. Include your appropriate qualification, registrant’s legal name, and the address of the project or activity. The design professional needs to sign, date and provide their license number along with a P.E/L.A stamp.

## **Part IX: Reviewing Qualified Professional Certification**

### ***For Review certification by Conservation District:***

Provide the name of the associated conservation district, legal name of registrant and address of which the project or activity. Where appropriate, the district professional must sign, date, and provide a license number.

**Or**

### ***For Review certification by Qualified Professional:***

Provide the company that employs the Qualified Professional, the professional legal name and license number.

The professional must sign, date, and provide a license number.

For additional guidance related to the level of independence of the Qualified Professional refer to Section 3(b)(11) of the general permit.

### ***Level of independency of a professional:***

For projects between 1-15 acres of site disturbance, verify statements 1 and 2.

For projects with 15 or more acres of site disturbance, verify statements 1-4.

## **Part X: Supporting Documents**

A list of attachments required to be submitted with this registration will be automatically generated based on the information you provide in the e-form and listed on the Supporting Documents/Summary page. Each attachment on the list is required to be submitted with this registration form. When submitting any supporting documents, please label the documents as indicated below (e.g., Attachment A, etc.) and be sure to include the registrant's name as indicated on the registration form.

### **Attachment A: United States Geological Survey (USGS) Quadrangle Map**

Submit a 8 ½" x 11" copy of the relevant portion of a USGS Quadrangle Map, at a scale of 1:24,000, indicating the exact location of the project site and proposed activities.

The quadrangle name should be noted on the copy of the map submitted. See Figure A at the end of these instructions for an example of how a USGS map must be labeled when submitted.

DEEP will use this map to enter your project location into its Geographic Information System (GIS). It is important that you accurately locate the project site and proposed activities because the GIS generates natural resource information relevant to your site. An inaccurate description of the project location may delay the processing of your registration.

### **Attachment B: Coastal Consistency Review Form**

Activities within the state's coastal area which includes the coastal boundary must be consistent with the Connecticut Coastal Management Act (CGS sections 22a-90 through 22a-112). You may be required to complete a *Coastal Consistency Review Form* (DEEP-APP-004) to demonstrate that the activity is consistent with the standards and policies of the Connecticut Coastal Management Act.

### **Attachment C: CT NDDB Information**

Submit copies of any correspondence provided to or received from the CT NDDB program, including a copy of a completed *CT NDDB State Listed Species Review Form* (DEEP-APP-007) as explained in Part IV, Item 6 of these instructions.

### **Attachment D: Conservation or Preservation Restriction**

If the property is subject to a conservation or preservation restriction, submit proof of a written notice of this registration to the holder of such restriction or a letter from the holder of such restriction verifying that this registration is in compliance with the terms of the restriction. Use local land records to obtain this information.

### **Attachment E: Pollution Control Plan**

Where applicable, Pollution Control Plan.

### **Available Resources:**

Below is a list of possible resources for specific information required for this registration. Be sure to also check the DEEP website, [www.ct.gov/DEEP](http://www.ct.gov/DEEP) and your local town hall or library for maps and other reference materials.

Both the DEEP Maps and Publications 860-424-3555 and the DEEP File Room 860-424-4180 are located on the store level at 79 Elm Street, Hartford, CT. Please call the appropriate office in advance for hours of operation.

For general assistance regarding stormwater and all wastewater discharges, contact the Water Permitting and Enforcement Division at 860-424-3018. For the subject general permit, registration form, instructions and other required documents visit the DEEP website at: [www.ct.gov/DEEP/stormwater](http://www.ct.gov/DEEP/stormwater)
