PART A. - Milestones

Indicate which of the following milestones have been achieved pursuant to the CGS 22a-449p for this submittal. The Commissioner or a Licensed Environmental Professional must approve each referenced report or plan.

- Release response report describing all initial response actions taken to prevent an on-going release and to mitigate an explosion, fire or safety hazard resulting from the release; results of the initial site investigation that determines the presence and extent of free product from the release; and descriptions of all interim actions taken and proposed to remove free product, provide potable water, and mitigate risks to public health. [CGS § 22a-449p(1)]
- Report describing interim remedial actions taken. [CGS § 22a-449p(2)]
- An investigation report and remedial action plan. [CGS § 22a-449p(3)]
- Soil remedial action report. [CGS § 22a-449p(4)]
- Groundwater remedial action progress report, including an analysis of whether the remedial actions are effective and proposed changes necessary to achieve compliance with the Remediation Standard Regulations. (This report may only be submitted after all needed construction is complete and the remedial actions have been operating and monitored for one year.) [CGS § 22a-449p(5)]

- First Second Third Fourth Milestone Achieved

Annual groundwater remedial action progress report, including descriptions of remedial actions, monitoring results, analysis of efficacy, and proposed changes. (Limit of 4 responsible party reimbursement applications per year for cost associated with achieving this milestone. Indicate, as noted above, which application this is and whether the milestone has been achieved) [CGS § 22a-449p(6)]

- Final remedial action report showing compliance with Remediation Standard Regulations. [CGS § 22a-449p(7)]

PART B. - Cost

1. Do the total costs incurred to date for this remediation exceed \$250,000?
 Yes No

2. If yes, has the Commissioner authorized a Licensed Environmental Professional to approve that all labor, equipment and materials provided after October 1, 2005, and all services and activities undertaken after October 1, 2005 are certified as follows in lieu of the Commissioner approval? If yes, attach the authorization, if not previously submitted for this release.
 Yes No

PART C. - Certification

(Please note that "release" is defined as "any spilling, leaking, pumping, pouring, emitting emptying, discharging, injecting, escaping, leaching, dumping or disposing of petroleum from any underground storage tank or underground storage tank system.")

I hereby agree that all of the labor, equipment, materials, services and activities described in or covered by this certification was appropriate under the circumstances to abate an emergency or was performed as part of a plan specifically designed to ensure that the release or suspected release is or has been investigated in accordance with prevailing standards and guidelines and remediated consistent with and to achieve compliance with the remediation standards adopted under Section 22a-133k of the General Statutes. I have personally examined and am familiar with the information submitted in this document and all attachments and certify that based on reasonable investigation, including my inquiry of those individuals immediately responsible for obtaining the information, the submitted information is true, accurate and complete to the best of my knowledge and belief, and I understand that any false statement made in this document or its attachments may be punishable as a criminal offense.
