

Institutional & Commercial Food Scrap Recovery

Moderator: K.C. Alexander, DEEP

Speakers

Lorenzo Macaluso, Center for EcoTechnology

Lee Kane, Whole Foods Market

CJ May, Yale University

Connecticut Department of Energy and Environmental Protection

Things to Think About Today

1. Where Are the Opportunities?

- To collect & process more materials?
- To increase # of businesses that process or make new products with recycled content?
- To strengthen markets locally, regionally, nationally?

2. What Are the Challenges We Face to Take Advantage of These Opportunities?

- Should we pursue policy? What kind?
- Should we create incentives? What kind?

3. Are There Good Existing Models for Policy & Program Development or Incentives?
