**Submission Note**  
If a parameter row does not contain any values for the Sample nor Effluent Trading, then none of the following fields will be submitted for that row: Units, Number of Excursions, Frequency of Analysis, and Sample Type.

**Edit Check Errors**  
No errors.

**Comments**  
The NetDMR parameter is listed as "Temperature, water deg. Fahrenheit" (code 00011) and the NetDMR requires the "monthly average" and "daily maximum." These two reporting requirements (between NetDMR and the NPDES permit) are not the same, so based on our understanding, we are providing the information required by the NPDES permit as an attachment.
