

Technology Workgroup #6

Minutes

May 23, 2006

1:00 to 4:00pm

Convener: Minakshi Tikoo

Major Topics/Discussion Points:

- * Convener gave an update of the Convener's meeting held on 5/19/06. Discussion at that meeting arose regarding the topics that are cross cutting among many of the Workgroups. It was decided that the individual groups will include the topics they have discussed in their reports. If duplication exists, those writing the final report will make the necessary revisions.
- * Members broke into subgroups: Access to Information, Co-Ordination of Care, EMR, Training and Quality of Care & Accountability- using laptops members prepared report documents that will be used in writing the report which is due June 5, 2006. Prior to that date, the report will be sent to the Workgroup #6 members for comment. The Oversight Committee will then review all of the reports from the Workgroups and will proceed with finalizing the report. At this stage, recommendations made by Workgroup #6 may be included or may be withdrawn.
- * Workgroup #6 members will be informed regarding the progress via email approximately one month after the report has been submitted to the Oversight Committee and monthly thereafter. Members will also be apprised of any issues that were removed from the report submitted by Workgroup #6 members.
- * Once SAMHSA reviews and approves the Comprehensive Mental Health Plan, Workgroup #6 will reconvene and the membership of the group may change for implementation purposes.
