Monday, March 16, 2015

Gambling Awareness with Urban and Minority Communities

Friday, April 17, 2015

Gambling Awareness with People in the Criminal Justice System

Thursday, May 14, 2015

Building upon the information gathered in the 2014 Focus Group Project and Regional Action Council Gambling Awareness Initiative, this Series of five, half day workshops will allow for a more in-depth exploration of self-identified groups who are vulnerable to impacts of legalized gambling expansion. Each Session will include: a panel representative of the specific population, large and small group discussion, presentation of current media relevant to this population, data on the nature and prevalence of gambling within this population, current treatment modalities, and development of an action plan which will inform the larger Problem Gambling Services Strategic Plan. Although this is a five part series, attendance at all five trainings is not mandatory.

Each training is from 9:00 a.m. to 12:30 p.m. and located in the Cocilovo Room of Beers Hall, CVH Campus. To register: www.ct.gov/dmhastraining

Enrollment limited.
