6 February 2012

To poultry exhibition participants:

This notice is to advise you that in order to ensure Pullorum and Avian Influenza test results are received in time for exhibitions, all requests for poultry testing must be received at least two weeks prior to the date results are needed by the flock owner. While every effort will be made to accommodate exhibition participants, all requests for testing will be filled on a first come first serve basis. Each party will receive a maximum of two visits during the exhibition season (July 1 – September 31).

Please contact 860-713-2504 with any questions or to schedule your testing.

Thank you for your cooperation.
