Re: DN 10-31548-CON, Acquisition of a CT Simulator in Trumbull

Dear Ms. Martone:

On October 26, 2010, OHCA granted Bridgeport Hospital's Certificate of Need to acquire a CT simulator for its radiation therapy practice in Trumbull.

I would like to inform OHCA that Bridgeport Hospital has installed a GE Optima 580 RT CT Simulator, which replaced the LightSpeed RT 16 CT simulator that was cited in the original CON, in its Radiation Oncology Center at 5520 Park Avenue in Trumbull. The Optima model has the same functionality as the LightSpeed unit. The CT simulator became operational on August 29, 2012.

If you have any questions, please don't hesitate to contact me at (203) 384-3946. Thank you.

Sincerely,

Carolyn Salsgiver
Senior Vice President, Planning & Marketing
