

Dear Legislator,

My name is Dino Tudisca. I am a contractor in Eastern Ct. I have been blessed with a busy schedule, however many many of my fellow contractors have not been so fortunate. I hear time and time again at how much they are hurting. Losing homes and even the ability to put food on the table. Those same sentiments are echoed by suppliers. This was a constant theme running through the Extreme Makeover project in Voluntown in Dec. These same contractors gave hours and hours of their lives to help others while they themselves were in need.

I believe it is imperative that the TVCCA be granted temporary contractor status so that the TVCCA can get the monies coming down from the Economic Recovery Act into the hands of the people who need it the most.

Who knows Southeastern CT better than the agency that serves that region.

Thank you in advance for your consideration.

Sincerely

Dino R. Tudisca
