## Exhibit A

### **Purpose:**

Pursuant to the Patient Protection and Affordable Care Act ("ACA"), the Exchange is required to accept open enrollments for health insurance plans beginning on October 1, 2013, for plans effective on January 1, 2014.

During the past year, the Exchange has worked to put in place the structure and operations necessary to create a health insurance marketplace to serve people of the Connecticut by October 1, 2013 pursuant to the ACA. Due to the short time frame involved for building and creating the Exchange, the team was sometimes forced to rely upon information that was incomplete, ambiguous and changed constantly due to evolving federal regulations. This condensed time frame for the build of the Exchange did not allow the management of the Exchange any time to be introspective about the structure that was put in place.

As October 1 approaches, the Exchange recognizes there is much room for improvement. Many of its processes are manual, and may be inefficient, due to lack of time and resources. As the Exchange shifts from the building phase to its actual operations, it must simultaneously work to fix known issues, address emergent customer needs, and stabilize the Exchange. During this next phase, the Exchange will be moving quickly to a part of its lifecycle where it is running its business on a more routine basis. Now is the time to learn from our past and change our operations where necessary to be more effective and efficient.

The Exchange desires the services of a management consultant to conduct a review of three different components of the Exchange's operations, and perform an independent analysis of the effectiveness and efficiency of these departments. The Exchange also hopes to identify ways to improve the processes and structures of its operations to address the challenges of routine operations.

### **The Contractor shall perform the following Services under this Agreement:**

Review and analyze three main areas of the Exchange's operations, and develop plans with current staff to strengthen effectiveness and efficiency.

  - Understand Pappas MacDonnell Marketing contract and work effort; and
  - Understand current training and education program conducted by Josephine Sempere and Denise Smith.
- Assessment of Plan Management Electronic Filing System process and Integrated Eligibility System.
  - Review and analysis of existing SERFF (System for Electronic Rate Form Filing) QHP template submission and Plan Management system processes to develop a more streamlined plan review and certification workflow/system. Goal is to limit manual

intervention, reduce the potential for plan discrepancies and expedite plan certification. This will include understanding the Plan Management functionality within the Deloitte Integrated Eligibility system, how that functionality is used currently, and how the plans for the future system mesh and complement the organization.

- Review of Operations functions managed by James Michel. Document the current workflows and organization for the following:
  - Contact Center process, workflow, and workload of current staff.
  - Small Employer Health Options (SHOP) program process, workflow, and workload of current staff.
  - Customer Response Team process, workflow, and workload of current staff
