(Effective December 21, 1971)

Sec. 16-1-4. Construction and amendment

These rules shall be so construed by the commissioners and any presiding officer as to secure just, speedy and inexpensive determination of the issues presented

(Effective December 21, 1971)

Sec. 16-1-5. Computation of time

Computation of any period of time referred to in these rules begins with the first day following that on which the act which initiates such period of time occurs. If payment of a fee is required, a document shall not be deemed filed until the fee is received by the department. If a document is electronically submitted when the offices of the department are not open, such electronic document shall be deemed filed at the time the offices next open. Electronic versions and paper copies of each document shall be filed on the same day or within two business days of each other.

(Effective December 21, 1971; amended June 11, 2003)

Sec. 16-1-12. Electronic web filer registration

Each business, firm, corporation, association, joint stock association, trust, partnership or limited liability company may have an unlimited number of registered web filers.

(b) To register as a web filer, a person shall (1) complete and submit, electronically, a registration form on the department's website "<http://www.state.ct.us/dpuc>", and (2) provide proper identification by facsimile or mail. The registration form shall require the person's name, address, telephone number, and e-mail address, along with a chosen password. A web filer shall be required to provide a chosen PIN if the web filer intends to authorize another person to web file documents on the web filer's behalf. The web filer shall, on the identification, clearly type or print his or her name, phone number and e-mail address, the chosen password and, if applicable, PIN. Once the registration form and identification are accepted by the department, the department shall confirm and activate the registration. The department may at any time issue a new password to any web filer. A web filer may at any time obtain a new password or PIN upon request to the department.

(c) A web filer shall notify the department immediately of any change in any information provided in the web filer's registration. (d) The department shall maintain as confidential records of all passwords and PINs. Each web filer shall maintain as confidential, except as provided in subsection (E) of this section, his or her password and PIN. A web filer, upon learning of the compromise of the confidentiality of any password or PIN, shall immediately notify the department.

(e) No person shall knowingly permit or cause to permit his or her password or PIN to be utilized by anyone other than an authorized employee or agent. If a web filer authorizes another person to file a document on his or her behalf using the user name, password or PIN of the web filer, such web filer shall retain full responsibility for any document filed.

(Effective December 21, 1971; amended June 11, 2003)

Sec. 16-1-13. Signatures

(b) A document shall be deemed to include an electronic signature if such document is filed under the department web filing system with the use of at least one PIN. A document shall be deemed signed by the persons whose names appear in the signature block and whose PINs were used in the filing of such document.

the target of the link. The department shall make available on its website information regarding compatible computer programs.

(e) **Identification of document.** The front page of each document filed with the department shall prominently display the filer's name, address, telephone number, facsimile number and, if available, e-mail address, as well as the company name if different from the filer. (b) Service requirements.

(1) Every person shall serve a copy of a filed document to every person on the service list of the proceeding in which the document is filed. This subsection shall not apply to the filing of protected materials.

The consenting person shall provide an e-mail address for the purpose of receiving all documents. A consent shall be signed by the consenting person and shall be filed under the department web filing system or submitted non-electronically.

(2) A consent given pursuant to this subsection shall be applicable to all the department's proceedings and remain effective until withdrawn by the consenting person. Any person may at any time withdraw his or her consent by submitting a written notice to the department.

Part 1

Parties, Intervention and Participation

Sec. 16-1-16. Designation of parties

In issuing the notice of hearing the commissioners will name as parties those persons whose legal rights, duties or privileges are being determined in the contested case and any person whose participation as a party is necessary to the proper disposition of such proceeding. All other persons proposing to be named or admitted as parties shall apply for such designation in the manner hereinafter described.

(Effective December 21, 1971)

Sec. 16-1-17. Application to be designated a party

It shall describe the manner in which the petitioner claims to be substantially and specifically affected by the proceeding. It shall state the contention of the petitioner concerning the issue of the proceeding, the relief sought by the petitioner, and the statutory or other authority therefor, and the nature of the evidence, if any, that the petitioner intends to present in the event that the petition is granted.

(c) Designation as party. The commissioners shall consider all such petitions and will name or admit as a party any person whose legal rights, duties or privileges will be determined by the decision of the commissioners after a hearing, if the commissioners find such person is entitled as of right to be a party to said contested case or that the participation of such person as a party is necessary to the proper disposition of said contested case.

(Effective December 21, 1971)

Sec. 16-1-18. Application to be an intervenor

(Effective December 21, 1971)

Sec. 16-1-19. Participation by intervenor

The intervenor's participation shall be limited to those particular issues, that state of the proceeding, and that degree of involvement in the presentation of evidence and argument that the presiding officer shall expressly permit at the time such intervention is allowed.

In addition to the designation of parties in the initial notice and in response to petition, the commissioners may add parties at any time during the pendency of any hearing upon their finding that the legal rights, duties or privileges of any person will be determined by the decision of the commissioners after the hearing or that the participation of such person as a party is necessary to the proper disposition of the contested case.

(b) Notice of designation. In the event that the commissioners name or admit any party after service of the initial notice of hearing in a contested case, the commission shall give written notice thereof to all parties theretofore named or admitted. The form of the notice shall be a copy of the order of the commissioners naming or admitting such added party and a copy of any petition filed by such added party requesting designation as a party. Each such party is deemed to be a party in interest who may be aggrieved by any final decision, order or ruling of the commissioners.

(b) Status of intervenor. No grant of leave to participate as an intervenor shall be deemed to be an expression by the commissioners that the person permitted to intervene is a party in interest who may be aggrieved by any final decision, order or ruling of the commissioners unless such grant of leave explicitly so states.

(Effective December 21, 1971)

(Effective December 21, 1971)

Sec. 16-1-26. Bill of particulars

The initial notice may be limited to a statement of the issues involved, if the commission is unable to include in the initial notice of the hearing in a contested case other than an application concerning the fixing of rates a detailed statement of the facts to be asserted for the consideration of the commissioners therein. Not later than seven (7) days after service of the initial notice any party may apply to the commission for a bill of particulars containing a more definite and detailed statement of said facts. If the commissioners find that a more definite and detailed statement of such facts is necessary and appropriate, a bill of particulars shall be prepared as directed by the commissioners and a copy served on each person named or admitted as a party on or before the date of service of the bill of particulars.

(Effective December 21, 1971)

Sec. 16-1-27. Effect of initial notice of hearing

Except as otherwise directed by an order of the commissioners, each contested case shall be deemed to have commenced on the date of service of the initial notice of the hearing thereof.

(Effective December 21, 1971)

Sec. 16-1-28. Ex parte communication

Unless required for the disposition of ex parte matters authorized by law, neither the commissioners nor any member of the commission staff designated as a presiding officer shall communicate directly or indirectly with any person or party concerning any issue of fact or law involved in any contested case that has been commenced under these rules, except upon notice and opportunity for all parties to participate. The commission staff member designated as presiding officer and the commissioners may severally communicate with each other ex parte and may have the aid and advice of such members of the commission staff as are designated to assist them in such contested case. This rule shall not be construed to preclude such necessary routine communications as are necessary to permit the commission staff to investigate facts and to audit the applicable records of any party in a contested case at any time before, during and after the hearing thereof. (See Sec. 16-1-27)

(Effective December 21, 1971)

Sec. 16-1-29. Representation of parties and intervenors

Each person making an appearance before the commission as an attorney, agent or representative of any person, firm, corporation or association subject to the commission's regulatory jurisdiction in connection with any contested case shall promptly notify the executive secretary of the commission in writing in order that the same may be made a part of the record of the contested case.

(Effective December 21, 1971)

Sec. 16-1-30. Attorney defined

As used in these rules, the word "attorney" shall mean an attorney at law, duly admitted to practice before the superior court of the state of Connecticut. Any other person who appears before the commission in any contested case shall be deemed to have appeared as the agent or representative of a person, firm, corporation or association and, as such, shall file with the written notification of appearance the written authorization of the person, firm, corporation or association being represented and shall be fully bound to proceed in accordance with these rules in the contested case.

(Effective December 21, 1971)

Sec. 16-1-31. Former commissioners and employees

Except when specially authorized by the commissioners, no person who has served as a commissioner or employee of the commission shall practice or act as attorney, agent or representative in any contested case before the commission or by any means aid in the preparation or prosecution of any such contested case which was pending before the commission while that person was so serving, if such representation or other employment in the contested case does or may involve the disclosure of confidential information acquired while serving as such commissioner or employee of the commission. In all cases except upon individual application and showing that such subsequent employment is not contrary to the public interest, no former commissioner or employee of the commission shall appear before the commission or accept employment in connection with any contested case before the commission within six months after the termination of such employment. The restrictions of this rule are in addition to and are not a limitation upon the provisions of the general statutes and the canons of ethics of any profession.

(Effective December 21, 1971)

Sec. 16-1-32. Rules of conduct

Where applicable, the canons of professional ethics and the canons of judicial ethics adopted and approved by the judges of the superior court govern the conduct of the commissioners, state employees serving the commission, and all attorneys, agents, representatives, and any other persons who shall appear in any proceeding or in any contested case before the commission in behalf of any public or private person, firm, corporation or association.

(Effective December 21, 1971)

Part 3

Hearings, Procedure

Sec. 16-1-33. General provisions

(a) Purpose of hearing. The purpose of the hearing in a contested case shall be to provide to all parties an opportunity to present evidence and argument on all issues to be considered by the commissioners.

(b) Uncontested disposition of case. Unless precluded by law, any contested case may be resolved by stipulation, agreed settlement consent order or default upon order of the commissioners. Upon such disposition a copy of the order of the commissioners shall be served on each party.

(Effective December 21, 1971)

Sec. 16-1-34. Record in contested cases

The record in each contested case shall be maintained by the commission in the custody of the executive secretary and shall include but shall not be limited to the following items. The commission will not be required to set forth as a separate item any of the following which may have been duplicated and incorporated in some other portion of the record:

(a) Any notices, petitions, applications, bill of particulars, complaints, orders, decisions, motions, briefs, exhibits, and any other documents that have been filed with the commission or issued by the commission in written form; (b) all written evidence of any kind received and considered by the commissioners; (c) any questions and offers of proof together with any objections and rulings thereon during

the course of the hearing; (d) any recommended decision, opinion or report submitted in writing to the commissioners by the member of the commission staff designated as the presiding officer at the hearing; (e) the transcript of the hearing.

(Effective April 25, 1974)

Sec. 16-1-35. Witnesses and subpoenas

In the conduct of the hearing of a contested case any commissioner may act in behalf of the commissioners and summon and examine under oath such witnesses in relation to the affairs of any public service company as the commissioners may find advisable. Any commissioner may act in behalf of the commissioners to direct the production and examination of such books, records, vouchers, memoranda, documents, letters, contracts or other papers in relation to the affairs of any public service company as the commissioners may find advisable. The fees of witnesses summoned on behalf of the commissioners to appear before the commissioners or before any presiding officer in the hearing of a contested case, and the fees for summoning such witnesses shall be the same as in the superior court. All such fees, together with any other expenses authorized by statute whose method of payment is not otherwise provided shall be paid through the executive secretary of the commission in the same manner as court expenses. In the event that any witness summoned under this authority objects to testifying or to producing any book or other paper ordered hereunder on the ground that such testimony, book or paper may tend to incriminate said witness, and in the further event that the commissioners or any commissioner directs said witness nevertheless to testify or to produce such book or paper and said witness complies or is compelled to comply by order of the court, then said witness shall not be prosecuted for any matter concerning which he has so testified, as provided in section 16-8 of the general statutes.

(Effective December 21, 1971)

Sec. 16-1-36. Filing of added exhibits

Upon order of any commissioner before, during or after the hearing of a case any party shall prepare and file added exhibits and testimony. Such added exhibits and testimony shall be deemed to be a disclosure by such party pursuant to section 16-8 of the general statutes.

(Effective December 21, 1971)

Sec. 16-1-37. Obstructing hearing

Any person who testifies falsely to any material fact in any contested case wherein he has given oath or affirmation or who wilfully falsifies any account, book, paper, record, report, financial statement, or any other exhibit that is made a part of the record in any contested case with the intent to mislead or deceive the commissioners or presiding officer will be prosecuted as provided in section 16-33 of the general statutes.

(Effective December 21, 1971)

Sec. 16-1-38. Rules of evidence

The following rules of evidence shall be followed in contested cases:

(a) Rules of evidence. Any oral or documentary evidence may be received, but the presiding officer shall, as a matter of policy, exclude irrelevant, immaterial or unduly repetitious evidence. The commissioners or presiding officer shall give effect to the rules of privilege recognized by law in Connecticut. Subject to these requirements and subject to the right of any party to cross examine, any testimony may be received in written form.

(b) Documentary Evidence. Documentary evidence may be received at the discretion of the commissioners or presiding officer in the form of copies or excerpts, if the original is not found readily available. Upon request by any party an opportunity shall be granted to compare the copy with the original, which shall be subject to production by the person offering such copies, subject to the provisions of Section 52-180 of the General Statutes as amended.

(c) Cross examination. Such cross examination may be conducted as the commissioners or the presiding officer shall find to be required for a full and true disclosure of the facts.

(d) Facts noticed, commission records. The commissioners may take notice of judicially cognizable facts, including prior decisions and orders of the commissioners. Any exhibit admitted as evidence by the commissioners of the presiding officer in a prior hearing of a contested case may be offered as evidence in a subsequent contested case and admitted as an exhibit therein; but the commissioners shall not deem such exhibit to be judicially cognizable in whole or in part and shall not consider any facts set forth therein unless such exhibit is duly admitted as evidence in the contested case then being heard.

(e) Facts noticed, procedure. The commissioners may take notice of generally recognized technical or scientific facts within the commission's specialized knowledge. Parties shall be afforded an opportunity to contest the material so noticed by being notified before or during the hearing, by an appropriate reference in preliminary reports or otherwise of the material noticed. This provision shall also apply to material noticed in any staff memoranda or data that may be submitted to the commissioners for their consideration in the determination of the contested case. The commissioners shall nevertheless employ the commission's experience, technical competence, and specialized knowledge in evaluating the evidence presented at the hearing for the purpose of making their finding of facts and arriving at a decision in any contested case.

(Effective April 25, 1974)

Sec. 16-1-39. Order of procedure at hearings

In hearings on complaints, applications, and petitions, the party that shall open and close the presentation of any part of the matter shall be the complainant, applicant, or petitioner. In a case where the opening portion has already been submitted in written form as provided by these rules, the hearing shall open with the cross examination of persons who have given written testimony. In the event any person has given written testimony and is not available for such cross examination at the time and place directed by the commissioners, all of such written testimony may be discarded and removed from the record at the direction of the commissioners.

(Effective December 21, 1971)

Sec. 16-1-40. Limiting number of witnesses

To avoid unnecessary cumulative evidence, the commissioners or the presiding officer may limit the number of witnesses or the time for testimony upon a particular issue in the course of any hearing.

(Effective December 21, 1971)

Sec. 16-1-41. Limitation of direct case in rate hearing

In any proceeding in which a rate change is proposed, the public service company's direct case shall be limited substantially to the statement of application and the exhibits and other materials annexed thereto unless the commissioners or the presid-

ing officer shall rule otherwise for good cause shown. All prepared written testimony filed with the statement of application shall be received in evidence with the same force and effect as though it were stated orally by the witnesses, provided that each such witness shall be present at the hearing at which such prepared written testimony is offered, shall adopt such written testimony under oath, and shall be made available for cross examination as directed by the commissioners or the presiding officer.

(Effective December 21, 1971)

Part 4

Hearings, Decision

Sec. 16-1-42. Filing of proposed findings of facts and briefs

At the conclusion of the presentation of evidence in any hearing the commissioners or the presiding officer shall fix a time within which any party may file proposed findings of facts and briefs.

(Effective December 21, 1971)

Sec. 16-1-43. Final decision

(a) Procedure and contents. All decisions and orders of the commissioners concluding a contested case shall be in writing. The decision shall include all findings of fact and conclusions of law relied upon by the commissioners in arriving at the decision, the findings of fact and law to be separately stated. The findings of fact shall also set forth a concise and explicit statement of the underlying facts supporting the findings of fact, where appropriate. In any contested case where the commissioners or presiding officer have required any party to submit proposed findings of fact, the decision shall further include a ruling by the commissioners on each proposed finding. In the event, however, that such a proposed finding of fact has been submitted by any party without such requirement or order of the commissioners or presiding officer, then the commissioners' decision may omit a ruling on any findings so proposed.

(b) Service. Parties shall be served in the manner herein provided with a copy of the decision and order of the commissioners.

(Effective December 21, 1971)

Sec. 16-1-44. Procedure to submit to parties

Where a majority of the commissioners have not heard a contested case or read the record thereof, any decision adverse to a party other than the commission, itself, shall not be made until such decision is served as a proposed decision upon each of the parties and until each party adversely affected thereby is afforded an opportunity to file exceptions and to present briefs and oral argument to the commissioners. Such proposed decision shall contain a statement of the reasons therefore and of each issue of fact or law necessary to the proposed decision, which statement shall have been prepared by the presiding officer or by a commissioner who has read the record of the hearing. By written stipulation the parties may waive compliance with this section of these rules.

(Effective December 21, 1971)

ARTICLE 3
PETITIONS AND APPLICATIONS

Part 1

Petitions and Applications, General Provisions

Sec. 16-1-45. General rule

Petitions and applications shall include all forms of proposals, requests, applications, petitions, and filings of whatever nature whatsoever that are placed before this commission pursuant to law.

(Effective December 21, 1971)

Sec. 16-1-46. Form

The form to be followed in the filing of petitions and applications hereunder will vary to the extent necessary to provide for the nature of the legal rights, duties or privileges involved therein. Nevertheless, all petitions and applications shall include the following components:

(a) Statement of application. Each petition or application shall incorporate a statement setting forth clearly and concisely the authorization or other relief sought. The statement shall cite by appropriate reference the statutory provision or other authority under which such authorization or relief is to be granted by the commission. In addition to the specific requirements for particular types of petitions and applications that may hereinafter be stated, the statement of application shall further set forth:

(1) The exact legal name of each person seeking the authorization or relief and the address or principal place of business of each such person. If any applicant or petitioner is a corporation, trust association or other organized group, it shall also give the state under the laws of which it was created or organized.

(2) The name, title, address and telephone number of the attorney or other person to whom correspondence or communications in regard to the petition or application are to be addressed. Notice, orders and other papers may be served upon the person so named; and such service shall be deemed to be service upon the petitioner or applicant.

(3) A concise and explicit statement of the facts on which the commission is expected to rely in granting the authorization or other relief sought, including the public convenience and necessity thereof.

(4) An explanation of any unusual circumstances involved in the petition or application, to which the commission will be expected to direct its particular attention, including the existence of emergency conditions or any request for the granting of interlocutory relief by way of an interim order in the proceeding.

(b) Annexed materials. There shall be attached to the petition or application any exhibits, sworn written testimony, data, models, illustrations and all other materials that the petitioner or applicant deems necessary or desirable to support the granting of the petition or application. In addition, such annexed materials shall also include such exhibits, sworn written testimony, and other data that any statute or these rules may require.

(Effective December 21, 1971)

Sec. 16-1-47. Original records

The petitioner or applicant shall furnish and make available for the use of the commission the original books, papers and documents from which any part of the application is derived. If so directed, certified or verified copies shall be furnished

in lieu of such original records. Failure to furnish original records may be ground for rejecting any component and, if appropriate, for refusing the petition or application.
(Effective December 21, 1971)

Sec. 16-1-48. Fees

All application fees or other charges required by law shall be paid to the commission at the time that the application is filed with the commission.
(Effective December 21, 1971)

Sec. 16-1-49. Rejection of petition or application

Where these rules require that specific exhibits or data be prepared and submitted as part of any petition or application, the authority may within thirty (30) days of the filing thereof, after notice and an opportunity to be heard, reject any petition or application or any portion of an application or petition that the authority finds to have failed to comply with criteria for submission of exhibits and data as are set forth in these rules. If in response to and within thirty (30) days of the filing of a petition or application the authority requests additional supporting exhibits or data, such exhibits or data shall be furnished within a reasonable time. For purposes of this provision, thirty (30) days from the date of the request shall be considered a reasonable time except where the data and exhibits requested are unusually complex or, in the aggregate, unusually voluminous. Failure to substantially comply with such request may be considered grounds for rejecting the application or petition or any portion of the application or petition to which such data or exhibits relate, after notice and an opportunity to be heard, notwithstanding that the date of rejection may under such circumstances be more than thirty (30) days after receipt of the petition or application.

(Effective December 6, 1978)

Sec. 16-1-50. Deficiencies in filing

When called to the attention of the petitioner or applicant, all deficiencies in any filed petition or application to the commission must be promptly corrected. If any such deficiency is not promptly corrected in the manner directed by the commission, the petition or application may be denied and rejected for lack of proper submission.
(Effective December 21, 1971)

Sec. 16-1-51. Purpose of application

The petition or application and annexed materials will be treated by the commissioners as a substantially complete statement of the case in chief of the applicant or petitioner.
(Effective December 21, 1971)

Sec. 16-1-52. Additional evidence

The enumeration of required items hereinafter set forth as the minimum evidentiary submission in the following sections shall not preclude the submission of additional evidence hereunder.
(Effective December 21, 1971)

All of such rate applications shall also comply with the rules hereinabove set forth in part 1 of this article.

A copy of the current standard filing requirements is available, upon request by interested parties, at the office of the Executive Secretary of the Department of Public Utility Control, Ten Franklin Square, New Britain, Connecticut 06051.

(Effective October 30, 1978, amended January 14, 1980, June 23, 1982; September 30, 1997)

Sec. 16-1-54. Test year

Regardless of the size of the utility company, in each rate application the test year shall consist of the most recent twelve month period available ending at a calendar quarter. The data presented in any statement concerning any test year shall be limited to the actual income and expenses as determined on the accrual basis during the subject period without adjustment or alteration.

(Effective January 28, 1988; amended September 30, 1997)

Sec. 16-1-55. Requirements for medium utility companies

In addition to the requirements stated in section 16-1-54 of the Regulations of Connecticut State Agencies, each rate application, as defined in section 16-1-53, that is filed by a utility company with revenues in excess of one hundred thousand dollars but less than fifty million dollars, or less than fifty thousand customers, shall contain the following data, either in the statement of application or as exhibits annexed thereto and accompanying the application:

(b) Balance sheet for the test year, for the prior three years, and a pro forma year.

(c) Schedule of existing rates and of actual revenues and number of customers by rates and by class for the test year and pro forma at the present and at the proposed rates.

(d) Statement of the proposed increases or changes which will result in adjustments, which rate applicant requests authority to make effective. Such statement shall set forth the proposed rate structure with reasonable clarity and with appropriate rate classifications where applicable, including bill comparisons between old and new rates.

(e) Detailed statement of annualization of revenues by class of customers served by rate applicant at the end of the test year. This will also include the number of customers by class. In the case of water companies this statement will further include the number of hydrants or other items of private fire protection. Where applicable, detail of adjustments to revenues and expenses for degree day data will be included in this statement.

(f) Schedule of utility plant additions for the past three years and for the test year. The schedule shall clearly indicate which plant additions are currently being

employed in furnishing utility service to the customers of the rate applicant on the date of the rate application.

(g) Actual and pro forma expense adjustments with supporting detail set forth by the accounts affected. Such adjustments shall be supported by competent evidence and shall not include estimates based on speculative or conjectural data.

(h) Comparative schedule of operation and maintenance expenses, classified as per utility's chart of accounts for the test year and the prior four years.

(i) Detailed statement of rate case expense.

(j) Rate base and rate of return for the prior four years, the test year, and the pro forma year at present and proposed rates.

(b) Services or commodities provided to associated companies, to which the rate applicant makes payments or receives payments. Such exhibit shall describe in detail the services or commodities provided, give a complete description of the basis for the charges or procedures used in allocating the cost, and furnish a copy of any contracts concerning such services or commodities.

(c) History of dividend coverage and payout the last four years, and a pro forma statement thereof at the present and proposed rates. This is not required where rate applicant is a closely held company or is a subsidiary of another company.

(Effective October 26, 1989; amended September 30, 1997)

Sec. 16-1-57. Combined operations

In any rate application by a utility which has more than one department, district, exchange, or system, the earnings results should be presented for the total utility operations of the company, as well as for any part of such operations for which a proposal is filed pursuant to the criteria set forth in section 16-1-53 of the Regulations of Connecticut State Agencies.

If the revision pertains to an amendment to the level of rates or the revenue requirements, then the revised application shall contain a complete revised statement and revised schedules for the proposed increases or changes in the existing rate schedule. In addition, all of the information required by Sections 16-1-53a, 16-1-55, 16-1-56, 16-1-57, and 16-1-59 shall be revised accordingly. After the first thirty (30) days following the date on which the rate application is filed the applicant may not amend or revise the level of rates shown

therein except upon the granting of permission to amend by the commissioners upon motion by the applicant.

(Effective December 21, 1971; amended September 30, 1997)

Sec. 16-1-59. Small utility companies

The following requirements shall apply to rate proceedings and applications of water or sewerage companies whose current annual gross incomes do not exceed \$100,000 per year or who provide service to not more than one thousand customers, hereinafter referred to as small water companies and sewerage companies.

(a) **Components required.** The small water and sewerage company shall not be required to comply with sections 16-1-51 and 16-1-56 in preparing and submitting its rate application as defined in section 16-1-53. However, in addition to the requirements in section 16-1-54, above, the rate applications filed by a small water company or sewerage company shall include the following:

(1) A map that will show the location of the principal water mains by size, all sources of supply, standpipes or storage facilities, and treatment facilities; and a brief description of the system of water supply and distribution of the water company or the system of sewerage collection and treatment of the sewerage company;

(2) The rates the company is presently charging its customers;

(3) The rates the company proposes to charge its customers;

(6) An income statement showing the actual results of the company's operations under the current rates; and

(7) An income statement showing the estimated results of the company's operations based on the proposed rates.

(b) **Additional data.** The small water and sewerage company will be permitted to present any further data, exhibits, and certain written testimony that it deems appropriate to support its application, and may be required to submit any additional information found necessary by the department pursuant to section 16-8 of the General Statutes of Connecticut.

(c) **How components submitted.** All of the components hereinabove listed shall be annexed to the application of the small water or sewerage company and submitted with the application and as a part thereof.

(Effective March 15, 1973; amended September 30, 1997)

Sec. 16-1-59A. Exception

The following requirements shall apply to all tariff filings by telephone companies which do not alter existing rates or charges.

(a) **Components Required.** All tariff filings by telephone companies which do not alter existing rates or charges shall include the following components, where applicable, in place of the components described in Sections 16-1-54 and 16-1-55, in addition to the requirements of Part I of this article.

(1) **Supporting Data.** Each tariff filing must be submitted to the Authority together with sworn testimony on matters of public benefit from the proposed service and cost justification for the proposed rate. The Authority may require such additional data as it deems necessary.

(2) **Effective Date.** Each tariff filing which does not alter existing rates or charges shall include an effective date which shall be no earlier than thirty (30) days after the filing date. Each such tariff filing may be placed into effect by the Company on the proposed effective date subject to the requirements of suspension and hearing under subsections (c) and (d) of this Section and shall be deemed approved by the Authority sixty (60) days thereafter if no action to the contrary is taken by the Authority.

(b) **Notice.** The Authority, by publication and by written notice to those who so request in writing, shall state the name of the Telephone Company, the proposed effective date of the new tariff, shall identify the subject matter of the new tariff, and shall state that the tariff and its supporting testimony and cost study are on file at the office of the Authority for examination by interested parties.

(c) **Hearing.** The Authority may on its own motion, or may upon receipt of a written petition in accordance with Article 3, Part I, order a public hearing on the proposed tariff. Upon suspension of said proposed tariff, a public hearing shall be held no later than thirty (30) days after the proposed effective date and the Authority shall issue its finding and order no later than thirty (30) days after such hearing.

(d) **Suspension or effectiveness of tariff.** If the proposed tariff becomes effective on its proposed effective date in accordance with subsection (a) (2) of this section it shall be subject to appropriate accounting orders to provide for possible refunds, with interest, should the rate ultimately be found unreasonable. Where a petitioner has satisfactorily demonstrated irreparable harm to his business or property should the tariff become effective, or where the Authority has determined unsatisfactory public benefit or the unreasonableness of the proposed rate, the Authority shall suspend the effective date and schedule a hearing in accordance with subsection (c) of this section.

(Effective April 12, 1978)

Sec. 16-1-59B. Exception

(a) The Division of Public Utility Control (DPUC) may allow construction work in progress (CWIP) to be included in rate base for facilities necessary to comply with the federal safe drinking water act (SDWA) and to permit affected water companies to implement a rate surcharge based on such CWIP, under the terms and conditions described below.

CWIP that is included in rate base will be subject to the following conditions:

(1) such surcharge will be implemented and revised on a calendar quarterly basis;

(2) Only actual expenditures will be included on a quarterly basis;

(3) The surcharge to be allowed will be based on 90% of the amount of construction expenditures as of the last date of the particular quarterly period, as confirmed on the project work orders;

(4) The rate of return or equivalent computation used in computing the surcharge will be the same as that allowed in the last rate case computed on a simple interest base and not compounded and the surcharge will include a specific revenue adjustment to offset applicable state and federal taxes payable on the revenues collected pursuant to the surcharge;

(5) Ten percent (10%) of said quarterly construction expenditures will be retained in "allowance for funds used during construction" (AFUDC) and the entire project will be reviewed for efficiency of construction at the time the facility is entered into service as being used and useful and any expenses resulting from inefficiency will be disallowed for regulatory purposes;

(6) Charges arising from the inclusion of construction work in progress in rate base will be allocated across the board on a rate structure basis and will appear as a separate item on the customer's bill until the facility is included in rate base; and

(7) No application for the actual implementation of any such surcharge will be accepted, and no such surcharge will be permitted to be collected, until the primary project has been let, started and is progressing to the point of onsite contractor and crew set-up, and full construction has begun on major elements of the subject facility.

(b) Any water company which is required to construct facilities necessary to enable that company to comply with the SDWA may apply to the DPUC for approval of a surcharge to customers based on the foregoing policy. The requirements set out in this section shall apply to proceedings and applications of water companies for an increase in rates based upon such a surcharge.

(c) (1) The provisions of subsection (a) (7) notwithstanding, any water company may apply to the DPUC for an advance determination that the subject facility meets the DPUC general condition for inclusion in interest base for purposes of such a CWIP-based surcharge, namely that such facility is necessary to enable the company to comply with applicable SDWA provisions, the construction of such facility was precipitated by such SDWA provisions, and such facility constitutes the least costly means of compliance, and has been designed in accordance with efficient and adequate engineering standards.

(2) Any water company applying for such an advance determination of facility qualification shall, no later than 60 days prior to the date such determination is required, submit to the DPUC the following:

(a) A letter of approval of the project plans and drawings from the State Health Department stating that such project is necessary, by applicable reference, for compliance with the SDWA along with a time/expenditure projection for the entire project, and

Part 6

Extended Local Calling Telephone Service

Sec. 16-1-118. General rule

These rules shall apply to all petitions received by the Public Utilities Control Authority for the extension of local telephone service in the State of Connecticut and shall govern the disposition of such petitions by the Authority under the standards set forth herein.

(Effective April 19, 1979)

Sec. 16-1-119. Definitions

As used in these rules concerning local calling.

(1) "Customer" or "Subscriber" means any person or entity which has contracted with a telephone company for residential or business exchange telephone service and shall include any such persons or entities that would normally be served from the exchange requesting extended local calling but have foreign exchange service properly provided from the exchange to which toll free calling is requested.

(2) "Contiguous Exchange" means an exchange that adjoins or comes in physical contact with the boundaries of another exchange at any point.

(3) "Exchange" means a telephone service area with geographic boundaries or company designated administrative boundaries within which all customers have access to an identical list of central office codes which constitute the first three digits of telephone numbers they can call without paying a toll charge.

(4) "Extended Local Calling (ELC)" means a local exchange service that allows the telephone user to dial to a telephone which is located in an exchange other than the one from which the customer is served without incurring a toll charge. Such service shall be deemed "two-way" if extended local calling service is available to both exchanges in which an ELC route terminates, and "way" where a call on such a route, in either direction, requires the payment of a toll charge.

(5) "Main Station" means each exchange access line, or the equivalent as defined in the telephone company tariff, connected to a central office serving the exchange in question. Connection at the central office to switching equipment permits communication with other main stations.

(6) "Non-Contiguous Exchanges" means that the exchange boundaries of two exchanges do not adjoin or come in contact with each other at any point.

(7) "Petition" means a request for extended local calling which meets the requirements of section 16-1-120 and is in compliance with the provisions governing petitions to the Authority in general, Section 16-1-10 through 16-1-15 and Sections 16-1-45 to 16-1-52.

(8) "Public Utilities Control Authority," "PUCA" or "the Authority" means the Connecticut Public Utilities Control Authority.

(9) "Telephone Company" means any public service company providing exchange telephone service within the state of Connecticut.

(10) "Split Town" means a Town served by two or more exchanges, between any two of which a toll charge applies when such toll charge is not the result of a customer choosing to be served from an exchange other than the one designated to serve that area.

(Effective February 24, 1982)

Sec. 16-1-120. Petitions

A petition to receive extended local calling shall, in order to be considered by the Authority, be signed by five percent (5%) of the subscribers in the telephone exchange in which the petition originates. The form of the petition shall state the name and telephone number of each person signing the petition, the name of the exchange in which the petition originated and the name of the exchange to which extended local calling is sought, whether the exchanges are contiguous to each other, the number of main stations in each exchange, and the name of each exchange to which the petitioning exchange either has existing extended local calling or has been granted extended local calling under these rules. The telephone company which serves the petitioning exchange shall provide this information on a suitable petition form to subscribers desiring to circulate a petition.

(Effective April 19, 1979)

Sec. 16-1-121. Telephone company studies

When a petition is filed with the Authority under Section 16-1-120, the telephone company serving the exchange shall be notified and thereafter the telephone company shall conduct a study to determine the effect, if any, of the provision of the extended local calling on the local exchange service rates then in effect, due to reclassification of one or both exchanges involved to a higher local service rate class. The telephone company shall also determine the overall effect on its revenue requirements and shall state separately the amount of annual toll revenues that would be lost by conversion to ELC, together with a complete cost study showing itemized capital costs and recurring costs. The telephone company shall determine the current average number of toll messages per month per subscriber between the exchanges involved. Upon the conclusion of such study or studies the telephone company shall file the information with the Authority.

(Effective April 19, 1979)

Sec. 16-1-122. Contiguous exchange extended local calling

The Authority shall hold a hearing on all petitions for the provision of extended local calling between contiguous exchanges to determine if the following requirements are satisfied:

(1) That the petition in all respects satisfies the criteria set forth in Section 16-1-120;

(2) That the toll messages on the route requested average greater than or equal to four (4) calls per customer per month from the petitioning exchange over a six month period;

(3) That a previous petition has not been rejected nor a subscriber vote conducted in the 18-month period prior to the petition.

Provided, however, that if a petition for a contiguous route encompasses two or more exchanges serving the same regional school district and said petition is sponsored by the superintendent for that district or the chief administrative officer for any town served by said district, or encompasses two or more exchanges in a split town; or is from an exchange in the lowest exchange classification; the requirement that the number of toll calls per customer per month exceed any given level need not be met.

(Effective June 12, 1980)

Sec. 16-1-123. Noncontiguous exchange extended local calling

The Authority shall hold a hearing on all petitions for the provision of extended local calling between non-contiguous exchanges to determine if the following requirements are met:

(1) That criteria set forth in Section 16-1-122 (1) and (3), relating to contiguous exchanges is fully satisfied: and

(2) That the toll messages on the non-contiguous route requested average greater than or equal to ten (10) calls per customer per month from the petitioning exchange over a six month period; or

(3) A petition from an exchange in the lowest exchange classification has been signed by at least 15 percent of the subscribers in that exchange. Only one such petition is required to meet the requirements of Section 16-1-120 and this section.

Provided, however, that if a petition for a non-contiguous route encompasses two or more exchanges serving the same regional school district and the petition received by the Authority is sponsored by the superintendent for that district or the chief administrative officer of any town served by said district, or is from an exchange in the lowest exchange classification; the requirement that the number of toll calls per customer per month exceed any given level need not be met.

(Effective April 23, 1984)

Sec. 16-1-124. Subscriber votes

In all cases where a petition for extended local calling otherwise conforms to these rules and either exchange would be subject to reclassification to a higher rate group for local service rates, subsequent to a hearing the Authority shall direct the Company to conduct a survey of all subscribers in any exchange subject to reclassification. The survey ballot and accompanying letter explaining the reason for the survey shall be submitted by the serving telephone company to the Authority and, unless otherwise directed by the Authority within 10 days, the company shall deem them approved for mailing. The vote of subscribers shall be taken during the next 60 days. Each separately billed subscriber is entitled to only one vote. Responses to such a vote shall be submitted to the telephone company no later than 30 days after the expiration of the 60 day voting period for counting under the direction of the Authority. The ballots for such votes shall clearly and plainly state:

(1) The increase in local service rates to which subscribers would be subject because of any rate group reclassification, under the currently effective tariff.

(2) The telephone exchanges, towns and three digit telephone number prefixes which would become accessible to the exchanges if extended local calling were approved.

Extended local calling shall be approved and ordered if after a hearing the Authority finds that more than 50 percent of the responding subscribers in each exchange required to be surveyed vote in favor of the additional extended local calling route and at least 50 percent of all subscribers in each exchange required

to be surveyed respond to the survey; provided only validly completed and signed ballots shall be used in computing the required percentages.

The ballots for the subscriber votes shall state separately for each exchange required to be surveyed the amount of local service rate increases due to reclassification under currently effective tariffs. In no event shall the percentage of responses or affirmative votes be aggregated or averaged over the exchanges involved, but the results shall be separately compiled for each exchange.

(Effective May 19, 1988)

Sec. 16-1-125. Telephone company modernization

A new extended local calling route which otherwise meets the conditions set forth in these rules may be delayed in implementation by the Authority beyond the normal implementation interval, if it finds that the construction necessary to provide the route would conflict with a plan or program of modernization of telephone service equipment, either in progress or planned by the telephone company or companies that serve the exchanges involved. Such a conflict in a plan or program of modernization may be deemed to exist if a type or types of modification to equipment, required to provide extended local calling, would produce a payback rate, computed using standard financial accounting techniques, of less than or equal to 10 percent. The computation of the payback rate shall be limited to the term of the period before which equipment is to be replaced or modernized and to the estimated cost of the capital investment necessary to provide extended local calling service.

(Effective April 19, 1979)

Sec. 16-1-126. One-way extended local calling routes

All existing one-way extended local calling routes shall be converted to two-way local calling in coordination with the planned conversion to ESS facilities. The subscribers affected by the conversion of existing one-way ELC routes shall pay only the expense associated with reclassification to a higher rate group, if any. Where reclassification of an exchange from Class I to Class III occurs as a result of conversion of one-way toll route(s) to two-way local calling, the increase to Class II rates will be effected upon completion of said conversion and the increase in rates to Class III will be effected two years after completion of said conversion.

(Effective April 19, 1979)

Sec. 16-1-127. Revenue requirement changes

Any changes in the revenue requirements of the telephone company due to the granting of ELC in compliance with these regulations shall be the proper subject of a public hearing pursuant to Section 16-19 of the General Statutes of Connecticut. The hearing may be limited to consideration of the revenue requirements emanating from actions taken under these regulations.

(Effective April 19, 1979)

Area Transfers

Sec. 16-1-128. Definitions

As used in these rules concerning area transfer.

(a) "Customer" or "Subscriber" means any person or entity which has contracted with a telephone company for residential or business exchange telephone service and shall also include any such persons or entities that reside in the area

requested to be transferred but which have telephone exchange service from an exchange other than that which would normally serve the area.

(b) "Exchange" or "Telephone Exchange" means a telephone service area with geographic boundaries or telephone company designated administrative boundaries within which all customers have access to an identical list of central office codes which constitute the first three digits of telephone numbers they can call without paying a toll charge.

(c) "Telephone Company" means any public service company providing exchange telephone service within the State of Connecticut.

(d) "Department" means the Department of Public Utility Control.

(e) "Petition" means a request that a specific geographic area be transferred from one exchange to another within the same town, which meets the requirements of Section 16-1-129 and is in compliance with the provisions governing petitions to the Department in general, Sections 16-1-10 through 16-1-15 and Sections 16-1-45 to 16-1-52.

(f) "Principal Exchange" means that exchange which serves the largest number of customers within the town.

(g) "Area Transfer Area" means a single continuous exchange service area adjacent to the principal exchange and presently served by only one other exchange.

(Effective September 27, 1988)

Sec. 16-1-129. Petitions

(a) A petition for the transfer of an area from one exchange to another, in order to be considered by the Department, must meet the following requirements:

(1) The petition must be from customers who reside in an area of a town which is served by an exchange other than the principal exchange.

(2) The petition must be for transfer of an area of a town to the principal exchange for the same town.

(3) The form of the petition shall state the name, address, and telephone number of each person signing the petition, the name of the exchange which serves the subject area, the name of the principal exchange serving the town, and the number of customers in the town served by each of the exchanges involved.

(4) The petition must be signed by at least five percent (5%) of the customers in the area transfer area.

(Effective September 27, 1988)

Sec. 16-1-130. Telephone company studies

When a petition is filed with the Department under section 16-1-129, the telephone company(s) serving the exchanges shall be notified and thereafter shall conduct a study to determine the effect, if any, of the transfer of the area in question on the rates, then in effect, due to reclassification of one or more exchanges. A complete report of the above study, including a five (5) year analysis of the revenue requirements associated with such a transfer shall be filed with the Department no later than ninety (90) days following receipt of notification that a petition has been filed. The telephone company also shall file, with the above report, a proposed survey ballot and accompanying letter which explains the purpose of the survey.

(Effective September 27, 1988)

Sec. 16-1-131. Hearing

The Department shall hold a hearing on all petitions for the transfer of subscribers from one exchange to another to determine if the petition in all respects satisfies

the criteria set forth in section 16-1-129, that a previous petition has not been denied in the eighteen (18) month period prior to the filing of the current petition and if the public interest would be served by the proposed transfer. For the purpose of this section and section 16-1-132, the Department shall consider, without limitation, the following factors in determining whether a proposed area transfer is in the public interest:

- (1) the estimated cost of implementing the transfer;
- (2) the number of customers who would be transferred;
- (3) the estimated impact of the transfer upon rates, charges, and service for other customers of the company, and upon the company's revenue requirements; and
- (4) the relationship between implementing the proposed area transfer and the company's modernization program.

(Effective September 27, 1988)

Sec. 16-1-132. Subscriber votes

(a) In all cases where a petition is found to be in the public interest and otherwise conforms to these rules, the Department shall direct the telephone company to conduct a survey of all subscribers in the area proposed to be transferred. The vote of subscribers shall be initiated within sixty (60) days after the hearing required in Section 16-1-131. Each separately billed subscriber is entitled to only one vote. Responses to such a ballot shall be submitted to the telephone company no later than thirty (30) days after the expiration of the sixty (60) day voting period for counting under the direction of the Department. The ballots for such votes shall clearly and plainly state:

(1) The change in local service rates, if any, to which the subscribers would be subject due to different exchange classifications under currently effective tariffs, if the area transfer were approved.

(2) The exchanges, towns and three (3) digit telephone number prefixes which would be accessible to the subscribers if the area transfer were approved.

(3) The exchanges, towns and three (3) digit telephone number prefixes which would no longer be accessible to the subscribers if the area transfer were approved.

(4) The three (3) digit telephone number prefix(es) to which subscribers telephone numbers would be changed if the area transfer were approved.

(b) Modification of exchange boundaries (area transfer) shall be ordered if the Department finds that at least 50 percent (50%) of those subscribers surveyed respond and at least 60 percent (60%) of those, vote in favor. Only validly completed and signed ballots shall be used in computing the percentages. An area transfer so ordered shall be mandatory for all customers in the subject area.

(Effective September 27, 1988)

Sec. 16-1-133. Telephone company modernization

An area transfer petition which otherwise meets the conditions set forth in these rules may, upon approval by the Department, be coordinated in implementation with the telephone company's modernization programs. In no event shall the delay exceed twelve (12) months.

(Effective September 27, 1988)
